AOEC Activities, Announcements, and Funding Opportunities

Two articles about silicosis published in MMWR Mortality Morbidity Weekly Report (MMWR) 2015 Feb 13: 64(5) with contributions from AOEC members.

[Silicosis mortality trends and new exposures to respirable crystalline silica - United States, 2001-2010](#) and [Notes from the field: silicosis in a countertop fabricator - Texas, 2014](#)

In addition there is the latest OSHA/NIOSH Hazard Alert: Worker Exposure to Silica during Countertop Manufacturing, Finishing and Installation <http://www.cdc.gov/niosh/docs/2015-106/>

Once again the Occupational Health Internship Program (OHIP) has received a bumper crop of applications. The reviewers are going through over 400 applications for less than 30 slots. The main limiting factor on slots is lack of funding. There's still time to contribute if you would like to assist this fabulous program. Contact Ingrid Denis at idenis@aoec.org for details on how to donate.

View from Vermont Avenue by Katherine Kirkland, Executive Director

In a move that fits the old Yogi Berra quote about déjà vu all over again, the President proposed cutting the existing NIOSH spending level of \$334.9 million to \$283.4 million in fiscal 2016, a \$51.5 million reduction in spending. Nearly every line item in the NIOSH budget received zero change except for two –

Education and Research Center (ERC) funding would be cut to zero
Agriculture, Forestry and Fishing Programs (AFF) would be cut to zero

Aaron Trippler of the American Industrial Hygiene Association (AIHA) and I believe this is the fifth year in a row the President has recommended to zero out funding for the ERCs and the AFF program but it may be the sixth. Friends of NIOSH and members of Congress have succeeded in retaining this funding thus far but this year may be different. Two major issues: Sen. Tom Harkin, long-time friend of the ERC and AFF has retired and the Republicans are now in the majority of both houses of Congress. Aaron's crystal ball reading is that if Congress decides to

actually adopt a federal budget this year there will be no better than a 50-50 chance of saving this funding. However, if Congress ends up adopting a Continuing Resolution and a final Omnibus Spending Bill, the odds increase to about a 90 percent chance of saving the funding. I agree with Aaron that it will be a definite uphill battle.

If anyone still needs convincing that the field of occupational health needs more trainees in the pipeline, take a close look at the positions available section of this newsletter. AOEC limits job advertisements to member clinics, universities, government agencies, and non-profit organizations. Even with that limitation, there are 23 positions advertised this month.

AOEC Individual Membership Dues Payable Now Please

If you haven't sent in your renewal, please do so.

CDC

Environmental Assessment of Foodborne Illness Outbreaks – A video preview

Check out CDC's [short video](#) to learn why you should register for CDC's fun, free, and interactive e-Learning on Environmental Assessment of Foodborne Illness Outbreaks.

This e-Learning course provides training on how to use a systems approach in foodborne illness outbreak environmental assessments. **Register for the e-Learning course at**

<https://ehseleafio.cdc.gov/>

After you register for the e-Learning course, CDC will provide you a user account. The course is presented in the context of a simulated virtual environment where participants can interact and practice the skills being learned. The course can be completed in about 8-10 hours. You can stop anytime during the course and when you log back in you will be taken to the exact spot you left off. Continuing education units are available.

NCEH/ATSDR

CDC's Fourth National Report on Human Exposure to Environmental Chemicals: Updated Tables provides exposure data on chemicals or classes of chemicals. The Updated Tables contain cumulative data from national samples collected beginning in 1999–2000 and as recently as 2011-2012. Not all chemicals were measured in each national sample. The data tables are available at <http://www.cdc.gov/exposurereport>. An asterisk (*) indicates the chemical has been added since publication of the Fourth Report in 2009.

NIOSH, OSHA & CPWR host 2015 National Fall Safety Construction Stand-down

The [National Institute for Occupational Safety and Health \(NIOSH\)](#), in a combined effort with the Occupational Safety and Health Administration (OSHA) and CPWR - [the Center for](#)

[Construction Research and Training \(CPWR\)](#), among other partners, announce the second-annual construction Fall Safety Stand-Down during the weeks of May 4-15, 2015. This event follows the success of last year's Stand-Down and asks employers and workers across the nation to pause in their work and dedicate time to activities that promote the prevention of fatalities from falls. For more information about the 2015 National Fall Safety Stand-Down, please visit: <https://www.osha.gov/StopFallsStandDown/>. For more information on the campaign to prevent falls in construction, visit: www.stopconstructionfalls.com

Positions Available

RN, Nurse Manager Occupational Health Clinic (Req#: 37657), UT Health Northeast

This full time position is located in Tyler, TX and the salary range depends on experience. It is an exempt position working days with the Occupational Health Clinic 3212.

Qualifications: Current RN license. AHA Healthcare Provider CPR. BSN degree preferred. Five (5) years clinical nursing experience with at least two (2) years' experience (within the last five (5) years) in Occupational Health Clinic, preferred. COHN preferred at hire, or ability to acquire certification with six (6) months.

UT Health is an equal opportunity and affirmative action employer and seeks to build a diverse employee community. It is the policy of The University to promote and ensure equal employment opportunity for all individuals without regard to race, color, religion, sex, national origin, age, sexual orientation, disability, or veteran status. Occupational Physician-Perelman School of Medicine, UPENN

The Department of Emergency Medicine at the Perelman School of Medicine at the University of Pennsylvania and Clinical Care Associates seeks an Occupational Medicine Clinical Physician with experience in the field of Occupational and Environmental Medicine (OEM). The appointee will act as an attending physician and oversee the work of nurse practitioners at the Hospital of University of Pennsylvania (HUP) and will be the Medical Director of Occupational Medicine at the sister Penn Presbyterian Medical Center (PPMC). Clinical and administrative responsibilities include but are not limited to evaluating, stabilizing, and providing initial treatment to patients who present to OM, evaluating and treating work related injuries and illnesses, making determinations regarding work relatedness of conditions, and making recommendations concerning modification of job functions. The University of Pennsylvania has a strong and active Occupational Medicine Residency training program supported by grants from both NIOSH and HRSA. The innovative training program has both internally and externally based trainees. As the appointee will assume responsibilities in the residency training program, competence and experience Graduate Medical Education is highly desirable. Evidence of scholarship is sought. The position also has substantial opportunities for collaborative research, including through an NIEHS funded Center of Excellence in Environmental Toxicology, and an NIEHS Superfund Research and Training Center with a focus on asbestos-containing waste. The Clinical Physician must be currently enrolled or have successfully completed a post-graduate residency training program, must be in good standing in the residency program and have performed a sufficient number of procedures, evaluations or treatments upon which the Emergency Medicine faculty and OEM faculty can assess clinical ability. The appointed physician must possess a license to

practice medicine or osteopathy in Pennsylvania. Competence in specific areas relevant to the practice of Occupational Medicine in a large tertiary Medical System such as in Travel Medicine, Wellness and/or musculoskeletal diseases will be an advantage. Other duties of the position include but are not limited to laceration repair, EKG interpretation, Spinal immobilization, Abscess incision and drainage, Splinting of single fracture/sprains, and Foreign body removal. For more information, candidates may contact Suzanne Simon, CCA Physician Recruiter, at suzanne.simon@uphs.upenn.edu or [610-902-1902](tel:610-902-1902). You may be able to apply directly through Penn Medicine's Job Opportunities Page. Please find the link here: [Job Posting Link](#)

Rocky Mountain Center for Occupational and Environmental Health-University of Utah

Two Positions in Industrial Hygiene

Open Rank: Rank to be determined by experience: One Early Career (e.g., Instructor or Assistant Professor) and One Advanced Rank (e.g., Associate Professor or Professor). These exciting tenure-track positions with a growing, nationally-recognized Industrial Hygiene (IH) program have responsibilities in areas of research, teaching, and administration with significant innovative potential. In addition to classroom and/or distance-based teaching, student guidance and research, these may also involve up to 25% administration and service activities for more senior-level appointment(s).

Job Summary – Both Faculty Positions: Serve as a faculty member in the IH program in the NIOSH supported Rocky Mountain Center for Occupational and Environmental Health, Department of Family and Preventive Medicine at the University of Utah. Develop/maintain an independently-funded research program. Other tasks include: [teach 2 IH courses per year](#); recruit, mentor and guide assigned students in the Master of Science in Occupational Health (MSOH) and Ph.D. in Occupational and Environmental Health (OEH) degree programs.

Technical Responsibilities: Develop and conduct research in an IH-related field of expertise. Provide guidance for IH students on planning and conducting research projects, and teach or guide them on how to analyze, evaluate and report IH data. Collaborate with or otherwise assist other IH and occupational health faculty with technical assistance or expert advice on studies and/or research projects.

Supervisory Responsibilities: Both positions require the faculty person to provide curricular guidance to assigned IH students as their Research Committee Chair, supervise student research, and coordinate with a technical writer to assure timely and accurate completion of project manuscripts/theses or dissertations as applicable. The advanced rank position would require supervision and mentoring of junior faculty, interfacing with faculty in other University of Utah departments and programs, and assuming more administrative responsibilities as needed.

Qualifications: A Ph.D. in Industrial Hygiene, Occupational and/or Environmental Health, Environmental Engineering, or a related field is required for both positions. For advanced rank, five or more years of experience in IH and Certification as a CIH by the American Board of Industrial Hygiene are required. In addition, a history of external research funding is also required. For early career level, applicant should be eligible to take the CIH examination within 3 years.

Link to the online application: <http://utah.peopleadmin.com/postings/35743>

Additional information on the position may be obtained from: Rod R. Larson, Ph.D., CIH, Rod.larson@hsc.utah.edu, Director, Industrial Hygiene, RMCOEH, University of Utah, 391 Chipeta Way, Suite C, Salt Lake City, UT 84108

The University of Utah is an Affirmative Action/Equal Opportunity employer. To inquire about the University's nondiscrimination or affirmative action policies or to request disability accommodation, please contact: Director, Office of Equal Opportunity and Affirmative Action, 201 S. Presidents Circle, Rm 135, (801) 581-8365.

Director of Outreach and Education-Syracuse, NY

The Department of Family Medicine at Upstate in Syracuse, NY is currently looking for a Director of Outreach and Education for the Occupational Health Clinical Center. Duties include, but not limited to:

- Administer OHCC outreach and education programs in 26 counties, which includes Central New York, the North Country and the Southern Tier regions of New York State
- Assume primary responsibility for implementing a program of outreach/education in the Central New York Region
- Direct, supervise and evaluate activities of two regional outreach and education coordinators. Ability to travel regionally is essential. Tenure Track Faculty Position

Tulane University School of Public Health and Tropical Medicine invites applications for a tenure track faculty position in the Department of Global Environmental Health Sciences at any level, with rank determined by experience and accomplishments.

The successful candidate will expand the department's role in research and teaching across the continuum of basic-, clinical-, and population-based environmental health sciences. Applicants should demonstrate strong interest or experience in interdisciplinary environmental public health research and teaching with respect to one or more of the following areas: water and wetland resources, climate change, and environmental/environmental health effects modeling. Candidates with expertise in environmental quality, management, and sustainability of urban or rural riverine and coastal environments including disciplinary themes in constructed wetlands, contaminated sediments, environmental microbiology, seafood safety, fresh or marine water quality, and spatial and temporal modeling among themes are encouraged to apply.

High ranking candidates would be those with a proven or highly probable track record of research and teaching in the fields outlined above and who demonstrate expertise or capabilities for developing a globally recognized, externally funded research program. In addition to individual research and teaching requirements, the successful candidate is expected to collaborate in research and teaching within the Department of Global Environmental Health Sciences and other departments in the School of Public Health and Tropical Medicine, and Tulane University.

Applicants must possess a doctorate in environmental health sciences or relevant field and demonstrate excellence in research and teaching at the undergraduate and graduate levels.

Application review will begin immediately and continue until the position is filled. Applicants should submit a cover letter, CV, research plan, and contact information for five references to: Jeffrey K. Wickliffe, Ph.D., Search Committee Chair, Department of Global Environmental Health Sciences, Tulane University School of Public Health & Tropical Medicine, 1440 Canal Street, Suite 2100, New Orleans, LA 70112-2704, Tel: 504-988-3910 jwicklif@tulane.edu

Positions at NIOSH-Morgantown

The Division of Respiratory Disease Studies (DRDS), National Institute for Occupational Safety and Health, Centers for Disease Control and Prevention, located in Morgantown, WV is recruiting for two positions-both at the Branch Chief level. Morgantown is the home of West Virginia University, with 30,000 students and a wide range of schools and programs. It's a very livable town, known for outdoor activities (hiking, biking, whitewater rafting), a highly educated workforce, and good schools. Morgantown is located about 80 miles from Pittsburgh, PA.

The work of DRDS is focused on occupational lung diseases, including common diseases like asthma and unusual ones like chronic beryllium disease. In the Field Studies Branch, we respond to requests from workers, management, and other government agencies for health hazard evaluations of workplaces, and conduct investigator-initiated research studies. These are multidisciplinary efforts that include physicians, epidemiologists, industrial hygienists, chemists, and others.

Position 1: Interdisciplinary Supervisory Research Health Scientist/Supervisory Research Industrial Hygienist, GS-601/690-15. The opening date is February 13, 2015 and closing date is March 13, 2015.

[All US Citizens apply under HHS-CDC-D2-15-1310117](https://www.usajobs.gov/GetJob/PrintPreview/392387400)

<https://www.usajobs.gov/GetJob/PrintPreview/392387400>

[Current and Former Federal Employees apply under HHS-CDC-M2-15-1310156](https://www.usajobs.gov/GetJob/PrintPreview/392390300)

<https://www.usajobs.gov/GetJob/PrintPreview/392390300>

Position 2: Supervisory Research Medical Officer, GS-602-15. The opening date is February 13, 2015 and closing date is March 13, 2015.

[All US Citizens apply under HHS-CDC-D2-15-1310674](https://www.usajobs.gov/GetJob/PrintPreview/392453100)

Industrial Hygienist-Cincinnati, OH

NIOSH is looking for an industrial hygienist to fill a position in its Health Hazard Evaluation Program located in Cincinnati, Ohio. This is a full-time position being offered as part of a CDC fellowship program. Job responsibilities include conducting workplace health hazard evaluations. The successful candidate would be a member of a team of medical epidemiologists, industrial hygienists, social scientists, ergonomists, and statisticians. The position affords the opportunity for travel within the United States and interaction with employee and employer representatives as well as other health and safety professionals.

Candidates should have a minimum of a Master's degree in industrial hygiene or a related field. For more information about the HHE Program, visit our website at <http://cdc.gov/niosh/hhe/> For further information about the position, contact Teresa Seitz, MPH, CIH, at tes2@cdc.gov.

University of California-Davis Faculty Position

The University of California, Davis, School of Medicine, Department of Public Health Sciences invites applications for a faculty position at the Assistant or Associate Professor level with expertise in occupational or environmental health and/or epidemiology teaching and research. This is a full-time tenure track appointment. A doctoral degree (e.g., PhD, DrPH, or MD) in a relevant field is required. The candidate must have experience with population-based occupational and environmental health research or exposure science related to occupational and environmental health outcomes. Special preference will be given to applicants with experience addressing health and safety of immigrant and contingent workers, agricultural workers and/or with global occupational health issues.

More information and application instructions available at:

University of California-Labor Occupational Safety and Health (UCLA-LOSH) Program Three Positions

HazMat Trainer/Coordinator

UCLA-LOSH is hiring a trainer/coordinator to teach, coordinate HazMat courses, provide technical support to LOSH staff and partners, and assist with outreach to improve workplace health and safety conditions and support community environmental justice initiatives in Southern California. Applicants must have field experience with worker training and with hazardous materials/hazardous waste programs including familiarity with first responder or emergency response activities. Field experience with worker safety and/or industrial hygiene programs is also desirable. Position can be full-time or part-time. UCLA-LOSH is a nationally recognized program and the lead organization of the NIEHS-funded Western Region Universities HazMat Training Consortium (WRUC). LOSH develops education programs and conducts research to inform public policy: [HazMat Trainer-Coordinator.pdf](#) Full or part-time.

Assistant Director of Program Administration

The UCLA Labor Occupational Safety & Health (LOSH) Program is hiring an Assistant Director to oversee administration, fundraising and organizational development, outreach, and communication across projects. UCLA-LOSH is a nationally recognized program dedicated to improving workplace health and safety conditions through outreach, education, research and policy initiatives with a focus on Southern California workers. LOSH is also the lead organization of the NIEHS-funded Western Region Universities HazMat Training Consortium (WRUC). The Assistant Director will strengthen existing programs and support expanded program development throughout Southern California and the Western Region: [Program Admin Director Position.pdf](#) Can be full or part-time.

Worker Health & Safety Educator/Coordinator

UCLA-LOSH is hiring an educator/ coordinator to develop worker health and safety programs through collaboration with a variety of labor, community, labor-management and employer partners. Applicants must have experience using interactive education approaches to develop leadership skills and to support worker engagement in workplace and community H&S activities. Bilingual communication and teaching skills are strongly preferred. UCLA-LOSH is a nationally recognized program dedicated to improving workplace health and safety conditions through outreach, education, research and policy initiatives with a focus on Southern California workers: [HS Educator-Coordinator.pdf](#)

Please see the full job announcements at losh.ucla.edu. Send resumes to Karen Murray: kmurray@irle.ucla.edu and Linda Delp: ldelp@ucla.edu.

World Trade Center Health Registry-Director of Research

The World Trade Center Health Registry, housed in the Division of Epidemiology in one of the country's largest and innovative health departments, has an opening for a Director of Research. The Registry monitors the long-term physical and mental health and gaps in care among a diverse cohort of 71,000 people exposed to the events of 9/11, including lower Manhattan residents, school children and persons who worked in the area, rescue/recovery workers and volunteers, and passersby on 9/11. The Registry also responds to 9/11-related health needs and concerns through referrals to care and dissemination of findings to enrollees and the public.

The selected candidate will have the opportunity to help shape the future Registry research agenda, and lead manuscript teams, if desired. Key topics in the Registry's 2015 ("Wave 4") health survey include chronic diseases; cancer; respiratory health and asthma control; mental health measures and treatment history; tobacco, alcohol and substance use; and cognitive functioning.

The Director of Research, under the direction of the Director/Principal Investigator of the WTCHR, and in coordination with the WTCHR's Deputy Director, will be responsible for oversight and guidance of the scientific activities of the Registry.

To apply online go to <https://a127-jobs.nyc.gov/>. In the Job ID search bar, enter: job ID number # 184679

Residency Requirement-New York City residency is required within 90 days of appointment. However, city employees in certain titles who have worked for the City for 2 continuous years may also be eligible to reside in Nassau, Suffolk, Putnam, Westchester, Rockland, or Orange County. To determine if the residency requirement applies to you, please discuss with the agency representative at the time of interview.

Tenure-Track Faculty Position in Industrial Hygiene and Occupational Safety University of Puerto Rico – Medical Sciences Campus

The Graduate School of Public Health at the University of Puerto Rico – Medical Sciences Campus invites applications for a tenure-track position at the rank of Assistant Professor. The successful candidate must

fulfill the following requisites: a) be a United States Citizen or Permanent Resident fluent in Spanish and English; b) develop and administer graduate courses in industrial hygiene sampling, industrial ventilation, industrial noise assessment and control, industrial toxicology, occupational safety, occupational health and systems safety design; c) develop and maintain an extramurally funded research program in industrial hygiene, occupational safety and health or related research areas; d) interact with local industry on behalf of the program; e) hold or commit to obtain CIH credentials within the first 5 years of employment; f) actively participate in the program's curriculum development and student recruitment activities; and g) be willing to gradually incorporate student mentoring as part of the workload. Applicants who promote a solid and friendly technical interaction with students in class, with expertise in exposure assessment, risk assessment or epidemiology approaches related to understanding the mechanisms of hazardous agents on human health and their control are encouraged to apply. Documented field and teaching experience are individually or combined considered a plus. The position is competitive with regards to local salary and laboratory space.

Qualifications: Candidates must have a Ph.D. or equivalent degree in Industrial Hygiene, Occupational Safety and Health or related field, and relevant research experience.

Applications: Please e-mail a curriculum vitae, a brief statement of current and future research interests, and contact information for three references to Dr. Sergio A. Caporali Filho, Chair of the Faculty Search Committee, at sergio.caporali@upr.edu. Applicants are encouraged to apply by April 15, 2015 for full consideration. Review of applications will continue until the position is filled. A background check will be required for employment in this position. Desirable start up date is June 2015.

Assistant Professor in Environmental Epidemiology-University of Montreal

The Environmental Cancer Epidemiology Group (ECEG) team has multiple international collaborations and one of the most significant bodies of research publications in the area of environmental epidemiology of cancer in the world. (See www.environepi.ca) The candidate will be integrated in a vibrant research and teaching milieu at the University of Montreal as a faculty member of the School of Public Health, in the Département de médecine sociale et préventive. Funding is available for five years. The initial contract is for three years; on satisfactory performance, it will be renewed for two more years. After five years the candidate may request transfer to a tenure track position. Salary is set by a collective agreement and depends on seniority; there is an attractive benefits package.

Candidates should have a PhD in epidemiology or equivalent and relevant postdoctoral experience. The successful candidate will have excellent mastery of epidemiologic methods, with application to research on environment and cancer, and a record of research productivity. At the time of taking up the award, the candidate should be a Canadian citizen or permanent resident, or possess a work permit. Preference will be given to candidates who will eventually be able to teach in French. Applications will be accepted until March 2015, and the new recruit can begin as soon as July 1st but at the latest October 30th 2015. Interested candidates should send a cover letter, the names of three referees, three articles, and a CV including teaching experience, to: Jack Siemiatycki PhD, Professor and Research Chair in Environment and Cancer, University of Montreal.

Send to j.siemiatycki@umontreal.ca with cc to natasha.graham.chum@ssss.gouv.qc.ca. Include the word "application" in the Subject line.

Occupational Medicine Residency Director-California

The Center for Occupational and Environmental Health and Division of Occupational and Environmental Medicine, Department of Medicine, at the University of California, Irvine, School of Medicine, is seeking an occupational medicine physician with a strong clinical and teaching interests to join our faculty as Assistant or Associate In the Health Science Clinical Professor Series, and Director of the Occupational Medicine Residency program. Our program provides occupational medicine specialty services with a broad referral base. This position will involve a balance between clinical practice and coordinating our established residency program. Time could be provided for funded research. The ideal candidate would have prior experience in teaching or leadership of an occupational medicine residency program and experience in providing clinical consultations on complex occupational and environmental medicine issues. The candidate must be board certified in occupational medicine and eligible for licensure in the State of California. Salary commensurate with experience. Interested candidates should contact Dean Baker, MD, MPH; Professor and Chief, Division of Occupational and Environmental Medicine, 100 Theory, Suite 100, Irvine, CA 92617. (dbaker@uci.edu)

TO APPLY: Applicants should complete an online application profile and upload their Curriculum vitae electronically to be considered at: <https://recruit.ap.uci.edu/apply/JPF02619>

Berkshire Health Systems Occupational Health and Environmental Medicine

Please forward qualified CVs to **Nyla Medlock** at nmedlock@medlockconsulting.com or call **TX Cell 806.239.6952** immediately regarding this stellar opportunity!

Tenure Track Faculty Position-Industrial Hygiene

Tulane University School of Public Health & Tropical Medicine invites applications for a tenure track faculty position in the Department of Global Environmental Health Sciences at the Assistant or Associate Professor level, with rank determined by experience and accomplishments. The successful candidate will join our ABET-accredited graduate program in industrial hygiene and participate in research and teaching in the areas of industrial hygiene, occupational health, and disaster management.

Applicants should demonstrate strong interest or experience in interdisciplinary environmental public health research and teaching in one or more of the following areas: general industrial hygiene, exposure assessment, occupational epidemiology, indoor air quality, emerging industrial hazards, disaster response and management. In addition to individual research and teaching, the successful candidate will have opportunities to collaborate with other faculty in the Department of Global Environmental Health Sciences, other departments in the School of Public Health and Tropical Medicine, and other schools and centers within Tulane University. Applicants must possess a terminal degree in industrial hygiene or relevant field and be board certified (ABIH) or eligible to attain certification within 3 years. For consideration at the rank of Associate Professor, candidates must have an established, vibrant research program with a history of external funding.

Applications will be accepted online through Interfolio beginning September 19, 2014 and continue until the position is filled. Use the link below to submit a cover letter, CV, research plan, and contact information for three (3) references: Application URL:

<http://apply.interfolio.com/26519>

Questions about the position or requests for additional information may be directed to: Roy J. Rando, ScD, CIH, Professor and Vice Chair, Department of Global Environmental Health Sciences, Tulane University School of Public Health & Tropical Medicine, 1440 Canal Street, Suite 2100, New Orleans, LA 70112-2704, Tel: 504-988-3870

Wayne State University's Institute of Environmental Health Sciences Community-engaged Environmental Health Outreach and Research Academic

Wayne State University's Institute of Environmental Health Sciences (IEHS) recently secured multi-year funding from the National Institute of Environmental Health Sciences/NIH to establish CURES, Center for Urban Responses to Environmental Stressors. The overall goal of CURES is to bring together environmental health scientists and the Detroit community of concerned citizens to address the most pressing environmental health challenges facing the city.

CURES is now looking for a person with the relevant academic and community experiences to act as a liaison between university investigators and community partners. Job duties include establishing a strong relationship with our community partners and identify new partners; be an active participant in community partners' initiatives to improve the environmental health; connect the community members with the relevant university scientists/investigators to further research on environmental health concerns; assist scientists in finding community partners for

community-engaged environmental health research; organize regular “Town-Gown” meetings in the community to promote joint community-scientist dialogues; establish a good rapport with the relevant local and State environmental health agencies, foundations, and private actors; participate in regular meetings with the Community Advisory Board and the CURES Program Leadership Team; write regular CURES newsletter, blogs, and other means to keep an active and community-engaged dialogue; update the CURES web page (www.iehs.wayne.edu); and other tasks assigned by the CURES leadership.

Qualifications: Master’s degree or higher in relevant areas. Must possess a proven track record of effective community-based outreach, research or other relevant activities. The person must possess outstanding oral and written communication skills. A strong commitment to community-engaged environmental health research is also a must. A genuine interest to strengthen the relationship between academia and the community. Established network among relevant stakeholders, including community, foundations, State and, local authorities, as well as the private sector. Knowledge about community organizing and fund raising.

Preferred Qualifications: Selected candidate should possess a demonstrated commitment to the integrated field of community-engaged environmental health science. It is vital that the person is outgoing, has the capacity to balance the interests and demands of different stakeholders, and has a strong track record of establishing and growing networks in the community. The person must also be able to “speak” in a way that engages different stakeholders in the CURES dialogue.

Job type: Full-time **Job Category:** Academic Staff

For further details, please contact Professor Bengt Arnetz, Deputy Director, IEHS at barnetz@med.wayne.edu

Occupational and Environmental Physician at Dartmouth-Hitchcock

Dartmouth-Hitchcock is recruiting an occupational and environmental medicine physician for the Lebanon, NH based Occupational and Environmental Medicine Clinic. As part of an expanding team of multidisciplinary occupational health professionals, your role would consist of diverse responsibilities including direct clinical evaluation and care, quality improvement, and program oversight and development. Clinical work will be based in our Academic Medical Center (DHMC) where the case mix includes complex work injury and illness management, clinical toxicology, independent medical examinations, permanent impairment ratings, disability management, pre-placement evaluations and medical surveillance. Other responsibilities include supervising nurse practitioners in Occupational Medicine, assisting with the development and management of off-site, local employer-based satellite clinics, and education at the undergraduate, graduate and continuing medical education levels. This is an exciting opportunity to participate in the growth of a comprehensive, integrated health protection and health promotion program in a stimulating academic environment. Our program has been recognized by the National Committee for Quality Assurance as a Level 3, Patient-Centered Specialty Practice. Requirements include Board Certification/Board Eligibility in Occupational Medicine and certification as a Medical Review Officer. A minimum of 3 years’ post-graduate clinical/programmatic experience at an occupational medicine clinic, including program development and oversight is preferred. Salary and academic appointment at the Geisel School of Medicine at Dartmouth will be commensurate with experience and training.

Dartmouth-Hitchcock is an academic medical center located in Lebanon, New Hampshire in the Upper Connecticut River Valley on the NH and VT Border. Home to Dartmouth College, the Upper Valley is a vibrant, academic and professional community offering excellent schools, lively arts, and an unmatched quality of life in a beautiful, rural setting. Amenities associated with urban areas in Boston MA, Burlington VT, and Montreal, QC are all within a few hours drive. Dartmouth-Hitchcock has been consistently ranked by U.S. News & World Report as One of America's Best Hospitals.

Please forward qualified CVs to **Nyla Medlock** at nmedlock@medlockconsulting.com or call **TX Cell 806.239.6952** immediately regarding this stellar opportunity!

Center for Asbestos Related Disease-Physician

The Center for Asbestos Related Disease (CARD) is recruiting a physician who is passionate about pulmonary occupational and environmental medicine for clinical patient care and asbestos disease research collaboration. In the northwest corner of Montana, CARD has emerged as a national center of excellence in addressing health care and health research associated with Libby amphibole asbestos. CARD is a non-profit clinic generated by community response to the nation's first and only Public Health Emergency.

Clinical care of the Libby amphibole cohort allows a unique depth of understanding of asbestos disease, over the course of individual progression and over generations. This unique perspective translates into informed research opportunities, increasing the chance of developing meaningful therapeutic intervention. To facilitate this research CARD maintains key relationships with established academic and institutional research partners within a globally comparative field of environmental fiber exposure. In addition to advancing the science of ARD, providers maintain a part-time clinical schedule managing advanced asbestos disease as well as supporting a national asbestos health screening program. Two medical providers and a team of twenty staff members provide holistic patient care, including counseling services, respiratory therapy and nurse case management.

CARD is an outpatient clinic, open Monday through Thursday, with no call requirements, serving an expanding patient population of 4,000. Our location on the beautiful Kootenai River, amongst mountainous wilderness, makes this opportunity a surprising combination of academic stimulation, rewarding patient care, and personal quality of life for those who enjoy outdoor recreational opportunities. For further information on this career opportunity: Michelle Boltz, NP-C 406.293.9274, ext 136 Michelle@libbyasbestos.org or go to www.libbyasbestos.org

Biosafety Specialist-Kansas State University

The Biosafety Specialist will assist the BRI Biosafety Officer/Select Agent Responsible Official in developing and implementing comprehensive safety programs and policies for the Kansas State University Biosecurity Research Institute (KSU BRI). This entails assisting with developing and implementing biological safety, biosecurity, chemical safety, life safety and medical surveillance

programs and policies for the BRI. The BRI Biosafety Specialist will assist the BRI Biosafety Officer in coordinating with research personnel, the University Research Compliance Office (URCO), the KSU Department of Environmental Health and Safety and regulatory agencies to ensure that the BRI meets all regulatory requirements, minimizes environmental risks, and protects human health.

Responsibilities include but are not limited to assisting with developing and coordinating programs involving select agents including serving as an Alternate Responsible Official, laboratory safety surveys, chemical and biohazardous materials inventories, autoclave validation testing, bloodborne pathogen exposure control, respiratory protection, hazardous waste disposal, importation and interstate transport of regulated biological materials, medical surveillance, and developing and conducting health and safety training.

This position will also provide guidance and consultation to assess the risk of working with human, animal and plant pathogens.

Preferred Qualifications: Advanced degree in biological or chemical sciences with emphasis in microbiology, biotechnology or related biological field. Five or more years of research, teaching or diagnostic laboratory experience with emphasis in microbiology, molecular biology, genetics, public health or related field and a good understanding of scientific principles and practices. Experience working in a biocontainment facility at biosafety level 3 or higher. Two or more years of experience as a biological safety professional applying working knowledge of regulatory requirements for biological materials and dealing with relevant federal, state and local regulatory agencies (DHS, DHHS, DOD, OSHA, USDA). Experience specifically implementing select agent regulations (42 CFR Part 73, 9 CFR Part 121, 7 CFR Part 331). Experience with development and delivery of biological safety training programs. Certification by the American Biological Safety Association (RBP or CBSP-ABSA).

Salary commensurate with qualifications and experience. To Apply: Send a curriculum vita/resume, letter of interest and contact information for three professional references to: Colleen Hackenberg, chack@ksu.edu, Kansas State University, Biosecurity Research Institute, 1041 Pat Roberts Hall, Manhattan, KS 66506-7600. Screening begins August 27, 2014 and will continue until the position is filled. For more information, contact Colleen Hackenberg at 785/532-1333. For full description: <http://www.bri.k-state.edu/employment/biosafety-specialist-8-14.html>

Fellowships

SW Ag Center/Noble Foundation Safety Internship

The SW Ag Center/Noble Foundation Safety Internship is designed to help budding agricultural professionals sow the seeds for a prosperous and bountiful career. Applications are accepted January 1st-March 15th from those interested in the opportunity of a lifetime. This paid internship is open to undergraduate and graduate students classified as juniors or seniors currently enrolled at a university, college or technical school in an occupational safety and health or agriculture-related field of study. The internship begins in mid-May and ends in mid-

August. The successful candidate will be involved in job safety analysis, safety and health training, program review and development, and assisting with facility inspections. Specific areas within the program review will include but not be limited to: chemical safety, fire protection, hazard communications, agricultural safety, confined spaces, electrical safety, and environmental. Successful applicants will also be exposed to agricultural health and safety research, including but not limited to the fields of agricultural engineering, epidemiology, industrial hygiene, microbiology and community based participatory research. Throughout the summer, the intern will have the opportunity to network with professionals in academia, extension, industry, and trade associations. Interns live in Ardmore, Ok and report to work at the Noble Foundation. Visit <http://www.swagcenter.org/opportunitiesinternships.asp> for more information.

Southwest Center for Agricultural Health, Injury Prevention and Education: Feasibility/Pilot Study Opportunity

The SW Ag Center is currently accepting applications for Feasibility/Pilot Studies focused on health and safety in Agriculture, Forestry, and Fishing (AFF) occupations. The goals of this program are to: 1) identify and mentor new/junior researchers to conduct innovative research, intervention, and translation projects in AFF worker safety/health; 2) support projects that provide data for innovative approaches to improve AFF occupational safety and health that justify further research, and; 3) promote mentoring relationships between junior and established scientists to build capacity for AFF occupational safety and health careers. Eligible applicants include junior investigators, graduate students, occupational medicine residents, postdoctoral fellows or faculty members of any rank who are interested in exploring and AFF safety and health research question. For this funding cycle, proposals with a focus on occupational safety and health in *logging and forestry; surveillance; or health promotion* will receive priority. Other topics that address occupational safety and health questions in AFF are welcome. The SW Ag Center is one of nine Centers currently funded by the National Institute for Occupational Safety and Health (NIOSH). The SW Ag Center serves U.S. Public Health Service Region 6 (AR, LA, NM, OK, TX). Letters of intent are due February 23rd and full applications are due on April 30th. Projects are awarded up to \$20,000. Project duration is limited to 12 months. Visit <http://www.swagcenter.org/opportunitiesfeasibilities.asp> for more information.

Recruiting for the UW Occupational Health Services Research Doctoral Traineeship

The University of Washington is actively recruiting for our occupational health services research (OHSR) doctoral traineeship, for Autumn 2015 admission. Please share this notice with anyone who might be a good candidate for our PhD program. The application deadline is December 15, 2014. The [Occupational Health Services Research Training Program](#) includes tuition, travel, and research support, as well as a stipend. The program is one of only two NIOSH-funded OHSR programs in the United States, and is part of the [Northwest Center for Occupational Health & Safety](#), a NIOSH-funded Education and Research Center (ERC). Trainees have the opportunity to participate in ongoing research projects through the [Occupational Epidemiology and Health Outcomes Program](#), as well as to undertake field-based studies in external organizations such as the [Washington State Department of Labor and Industries](#). Alumni from the program work in research, educational, and government institutions, designing and evaluating programs to

ensure effective, efficient, and equitable care for workers. (Please note: Due to federal rules, this traineeship is only available to U.S. citizens and permanent residents.) If you have questions, please contact Jeanne Sears, PhD, RN, Research Associate Professor, jeannes@uw.edu.

**Pediatric Environmental Health Fellowship –
The University of Washington Division of General Pediatrics**

The fellowship is funded through the [University of Washington’s NRSA Primary Care Fellowship](#) in conjunction with general internal medicine and family medicine. Grant funding is provided by the National Institute of Health and administered by the Public Health Service Health Resources and Services Administration. Fellows participating in this are eligible for the NIH loan repayment program. We provide two years training in research methods, research experience with an established investigator, and the opportunity to enroll concurrently in the Master of Public Health program. Fellows assume a precepting role in one of our pediatric residency clinics and provide consultations in our Pediatric Environmental Health Specialty Unit (PEHSU).

The UW Division of General Pediatrics and the affiliated Center for Child Health, Behavior and Development of Seattle Children’s Research Institute, the Child Health Institute of the University of Washington, the Harborview Injury Prevention and Research Center, and the Northwest Pediatric Environmental Health Specialty Unit provide rich and diverse mentoring opportunities for Pediatric NRSA fellows. Potential applicants can access further information and apply on the website: <http://nrsafellowship.weebly.com/>

Fellowship Training Program in Pediatric Environmental Health – Mount Sinai School of Medicine

The Mount Sinai School of Medicine invites qualified applicants (MD or PhD) to apply for a 3-year post-residency/postdoctoral fellowship training program in Pediatric Environmental Health sponsored by the National Institute of Child Health and Human Development (NICHD). This program provides training in epidemiology, biostatistics, toxicology, risk assessment and preventive medicine, and includes course work leading to a Master of Public Health (MPH) degree. The capstone of the fellowship is a mentored research experience that is intended to train fellows in the successful conduct of research and will lead to the production of publishable manuscripts. The mentored research project serves also as the basis for each fellow’s MPH thesis. Fellows gain additional training in clinical research, policy development and evidence-based advocacy. Clinically trained fellows will gain clinical experience in environmental pediatrics through the Agency Toxic Substance and Disease Registry (ATSDR) and the Environmental Protection Agency (EPA) supported Pediatric Environmental Health Specialty Unit. The goal of the program is to produce future research leaders in the emerging field of pediatric environmental health who will be positioned to lead the National Children’s Study and populate academic health centers across the United States. Up to two positions are available each academic year. Members of under-represented minorities are strongly encouraged to apply. For a brochure or other information, contact Damiris.Perez@mssm.edu or phone 212-824-7109.

Conferences and Meetings

Supervising Asbestos Abatement Projects – Refresher Course

February 17, 2015 and April 7, 2015

Chapel Hill, NC

This is an EPA- and North Carolina-approved AHERA course that is required to maintain certification as a supervisor of asbestos products.

<http://osherc.sph.unc.edu/continuing-education/courses/supervising-asbestos-abatement-refresher.html>

Building Inspection for Asbestos - Refresher Course

February 18, 2015 and April 8, 2015

Chapel Hill, NC

This is an EPA- and North Carolina-approved AHERA course that is required to maintain certification as a building inspector for asbestos.

<http://osherc.sph.unc.edu/continuing-education/courses/building-inspection-for-asbestos-refresher.html>

Management Planning for Asbestos - Refresher Course

February 18, 2015 and April 8, 2015

Chapel Hill, NC

This is an EPA- and North Carolina-approved AHERA course that is required to maintain certification as a management planner for asbestos.

<http://osherc.sph.unc.edu/continuing-education/courses/management-planning-for-asbestos-refresher.html>

Designing Asbestos Abatement - Refresher Course

February 19, 2015 and April 9, 2015

Chapel Hill, NC

This is an EPA- and North Carolina-approved AHERA course that is required to maintain certification as a project designer of asbestos abatement.

<http://osherc.sph.unc.edu/continuing-education/courses/designing-asbestos-abatement-refresher.html>

1-Day NIOSH Approved Spirometry Refresher Course

February 20, 2015

Chicago, IL

University of Illinois at Chicago Great Lakes Centers is offering this course. This one-day NIOSH Approved Spirometry refresher course is designed for experienced spirometry technicians who have completed a NIOSH Spirometry certification course within the last five years. Participants are encouraged to bring samples of spirograms from their work setting. You must fax or email your initial NIOSH approved course certificate prior to the course to demonstrate your eligibility to register. Documentation of a valid NIOSH Spirometry certificate is required. NIOSH has

instituted a 7-month grace period added to your course certificate for completion of the NIOSH Approved Training course. For additional information please e-mail syn@uic.edu or call [312-996-6904](tel:312-996-6904) or fax [312-413-7369](tel:312-413-7369).

Comprehensive Review of Industrial Hygiene

February 23-27, 2015

Salt Lake City, UT

The Rocky Mountain Center for Occupational and Environmental Health is offering its review course. If you have an interest in or a need for this course contact us at 801-581-4055 or visit our website at <http://medicine.utah.edu/rmcoeh/continuing-education/course-calendar2015.php#feb>

International Symposium on Alternatives Assessment: Advancing Science and Practice

March 5-6, 2015

Bethesda, MD

The Symposium provides a collegial forum for governmental agency staff, university researchers, industry sustainability professionals, environmental health consultants and advocates to:

- Understand and discuss gaps in knowledge and methods confronting the use of alternatives assessment.
- Identify elements of a research agenda for alternatives assessment and a process for moving it forward.
- Advance and support the growing community of practice for alternatives assessment.

Registration information at: <http://www.saferalternatives.org/>

NIOSH Approved Spirometry Refresher Course (Approval #101)

March 10, 2015

Baltimore, MD

The course briefly reviews the pathophysiology of obstructive and restrictive impairments and emphasizes correct performance of spirometry and the effects of technical errors and spirometer malfunctions on test results and interpretations of respiratory impairment. Students practice recognizing testing errors, using problem graphs from quality control samples. The goal of the course is not only to review what the recommendations and requirements are for conducting tests and interpreting results, but also why the recommendations and requirements were made. <http://www.jhsph.edu/research/centers-and-institutes/johns-hopkins-education-and-research-center-for-occupational-safety-and-health/spirometryrefresher.html>

NIOSH Approved Spirometry Course (Approval #115)

March 11-13, 2015

Baltimore, MD

Using lectures, discussions, and practice sessions, the course presents pulmonary pathophysiology, types of spirometers, how to conduct spirometry tests, recognizing testing and equipment errors, supervised use of the spirometer, measurement of the spirogram, and interpretation of results. OSHA standards, ANSI Z88.6-2006 "Respirator Use Physical

Qualifications for Personnel," and the 2005 American Thoracic Society (ATS) Guidelines for spirometry are reviewed. <http://www.jhsph.edu/research/centers-and-institutes/johns-hopkins-education-and-research-center-for-occupational-safety-and-health/spirometry.html>

Cardiovascular Health and Disease: Occupational and Environmental Factors and Updates in Occupational and Environmental Medicine

March 12-14, 2015

San Francisco, CA

Meeting will include an evening scientific poster session on March 11, 2015 as part of its curriculum. The course and poster session are under the aegis of the Division of Occupational and Environmental Medicine in the Department of Medicine at the University of California, San Francisco. Information and registration: <http://www.ucsfcmecme.com/2015/MDM15N01/info.html>

Overview of Occupational Health Nursing

March 16-18, 2015

Baltimore, MD

This course will help prepare occupational health nurses who plan to take the American Board for Occupational Health Nursing Certification (ABOHN) examination. Others interested in a comprehensive review of occupational health nursing may also enroll.

<http://www.jhsph.edu/research/centers-and-institutes/johns-hopkins-education-and-research-center-for-occupational-safety-and-health/ce/ohnbrochure.html>

NY and NJ Education and Research Center 36th Annual Scientific Meeting

Occupational Health and Safety in Construction:

New Preventive Models for Large Construction Projects

March 20, 2015

New York, NY

To register or for more information, http://nynjerc.org/Annual_Scientific_Meeting.html

2-Day NIOSH Approved Spirometry Course

March 20 & 21, 2015

Chicago, IL

University of Illinois at Chicago Great Lakes Centers is offering this course. Registration website: <http://www.cvent.com/d/trgn82>. Instructors: Drs. William Clapp and Mark Yoder. This program teaches the basics of respiratory anatomy and physiology and how occupational and environmental exposures affect the respiratory system. Participants will learn the proper techniques for obtaining valid spirometric values, as defined by NIOSH. This does not imply that the individual is a NIOSH pulmonary function technician, but that the individual has completed a NIOSH-approved course. CE Available: 1.5 Industrial Hygiene CM points, continuing nursing education and 16 continuing education hours of credit for respiratory care practitioners. For additional information please e-mail syn@uic.edu or call [312-996-6904](tel:312-996-6904) or fax [312-413-7369](tel:312-413-7369).

Comprehensive Industrial Hygiene (CIH) Review Course

March 23-27, 2015

Chapel Hill, NC

This course is specifically designed to assist industrial hygienists in preparing to sit for the CIH examination. This course will provide you with an oversight of the areas that will be the focus of your exam preparation efforts and highlight any weak areas you may have. Others needing a comprehensive review of the field of industrial hygiene are also encouraged to attend. This course is not intended for entry level industrial hygienists. Attendees must have a basic understanding of mathematics, statistics and chemistry.

<http://osherc.sph.unc.edu/continuing-education/courses/comprehensive-industrial-hygiene-review.html>

OSHA Respirator Essentials and Fit Testing

April 8, 2015

Chapel Hill, NC

This is designed for every health and safety professional involved in respiratory protection. OSHA requirements for a respiratory protection program will be reviewed and hands-on workshops will provide practical experience in both quantitative and qualitative fit testing. At the satisfactory completion of this course, you will receive a Certificate of Completion for Respiratory Fit Testing.

<http://osherc.sph.unc.edu/continuing-education/courses/osha-resp-essentials.html>

17th Annual Occupational Health Symposium: Total Worker Health

April 16-17, 2015

Cedar Rapids, IA

This annual spring symposium has a new spin, as we are adding topics regarding Total Worker Health. We are not separating sessions (I: Industrial Hygiene, II: Safety & Ergo, or III: Occ Med & Occ Health Nursing), instead we are incorporating these concepts into the two-day event. The Total Worker Health Program supports research in the integration of health protection and health promotion programs with communication of current knowledge, promising practices, challenges, and concepts of total worker health. [Online Registration](#) or contact Megan Meyer at 319-335-4684 or megan-cz-meyer@uiowa.edu for more information

Southeastern States Occupational Network (SouthON) Fourth Annual Meeting

April 16-17, 2015

Lexington, KY

Save the date. More information available in 2015.

<http://www.uky.edu/publichealth/about/events/2015-04-16/southeastern-states-occupational-network-southon-4th-annual-meeting>

Fundamentals in Industrial Ventilation & Practical Applications of Useful Equations

April 20-24, 2015

Cincinnati, OH

ACGIH® and its renowned Industrial Ventilation Committee are pleased to offer Fundamentals in Industrial Ventilation & Practical Applications of Useful Equations. Comprehensive and interactive, this course covers basic and advance topics related to ventilation. The course

includes classroom presentations, labs, hands-on exercises and team activities. Information at: https://www.acgih.org/events/course/FundPrac_Apr15reg.htm?utm_source=Fundamentals+Course+-+Apr+2015&utm_campaign=IVN14&utm_medium=email

Building Inspection for Asbestos - Initial Course

April 20-22, 2015

Chapel Hill, NC

This 3-day EPA approved course is designed to meet the AHERA requirements for those individuals inspecting buildings for asbestos. Information will be provided to assist in the planning, implementation and documentation of the inspection process. This course is a prerequisite to AHERA Management Planning for Asbestos. This course will include fit-testing of all students and hands-on practice in inspecting

<http://osherc.sph.unc.edu/continuing-education/courses/building-inspection-for-asbestos.html>

Management Planning for Asbestos - Initial Course

April 23-24, 2015

Chapel Hill, NC

This 2 day EPA approved AHERA course will introduce participants to the components of a management plan dealing with asbestos in a structure. This course meets the requirements under AHERA for accreditation of management planners. The AHERA Initial Building Inspection for Asbestos course is a **prerequisite** for the AHERA Initial Management Planning for Asbestos course.

<http://osherc.sph.unc.edu/continuing-education/courses/management-planning-for-asbestos.html>

The 2015 American Occupational Health Conference

May 3-6, 2015

Baltimore, MD

Sponsored by ACOEM, The American Occupational Health Conference (AOHC) is designed for physicians who specialize in or have an interest in OEM as well as for non-physicians, such as industrial hygienists, nurses, safety professionals, and environmental health specialists who are involved in the field. AOHC offers a variety of educational activities for participants new to OEM as well as for the experienced professional. <http://www.acoem.org/aohc.aspx>

Occupational Health Nursing: An Introduction and Review of Principles and Practices

May 4-6, 2015

Chapel Hill, NC

This course will provide the basic principles and concepts of occupational health nursing practice. Emphasis will be on the nurse's role as a member of the occupational health team, development of an occupational health service, prevention of injury and disease, health promotion of adults, and protection of worker populations. The content is designed for nurses who are new to occupational health nursing or those who have had a limited scope of practice but desire to expand that scope of environmental and occupational health nursing practice.

<http://osherc.sph.unc.edu/continuing-education/courses/intro-occupational-health-nursing.html>

CAOHC Approved Hearing Conservation Course

May 6-8, 2015

Baltimore, MD

Instruction in audiometric testing through lecture and practicum experience for occupational health professionals who administer audiometric testing as required by regulations including the OSHA Hearing Conservation Amendment (29 CFR 1910.95) and the Mine Safety and Health Administration (MSHA) Health Standards for Occupational Noise Exposure 30 CFR 62 .

<http://www.jhsph.edu/research/centers-and-institutes/johns-hopkins-education-and-research-center-for-occupational-safety-and-health/hearing.html>

Work, Stress, and Health 2015

Sustainable Work, Sustainable Health, Sustainable Organizations

May 6-9, 2015

Atlanta, GA

Sponsored by: the National Institute for Occupational Safety and Health, the American Psychological Association, and the Society for Occupational Health Psychology. The series addresses the ever-changing nature of work and the implications of these changes for the health, safety and well-being of workers. The conference covers numerous topics of interest to labor, management, practitioners and researchers, such as work and family issues, new forms of work organization, changing worker demographics, best practices for preventing stress and improving the health of workers and their organizations. For additional information, please contact: Wesley Baker Tel: 202-336-6124 email: wbaker@apa.org or go to

<http://www.apa.org/wsh/>

CAOHC Approved Hearing Conservation One Day Refresher Course

May 7, 2015

Baltimore, MD

Instruction in audiometric testing through lecture and practicum experience for occupational health professionals who administer audiometric testing as required by regulations including the OSHA Hearing Conservation Amendment (29 CFR 1910.95) and the Mine Safety and Health Administration (MSHA) Health Standards for Occupational Noise Exposure 30 CFR 62 .

<http://www.jhsph.edu/research/centers-and-institutes/johns-hopkins-education-and-research-center-for-occupational-safety-and-health/hearing.html>

33rd Annual Occupational and Environmental Medicine Symposium

May 9, 2015

Sacramento, CA

Save the date. For information call 916-734-5390

National Occupational Injury Research Symposium (NOIRS 2015)

May 19-21, 2015

Kingwood, WV

NIOSH is pleased to announce that NIOSH will hold the sixth Co-sponsors are American Society of Safety Engineers, Liberty Mutual Research Institute for Safety, National Safety Council, and Society for Advancement of Violence and Injury Research. NOIRS is the only national forum focused on the presentation of occupational injury research findings, data, and methods. The theme for NOIRS 2015 is "Advancing Occupational Injury Research through Integration and Partnership." Additional information: <http://www.cdc.gov/niosh/noirs/2015/>

National Canadian Occupational Health Nurses Conference**May 2-29, 2015****Edmonton Alberta**

Save the date for the Alberta Occupational Health Nurses Association 2015 Provincial Symposium. Contact us at: www.aohna.ab.ca or info@aohna.ab.ca

AIHce 2015**May 30-June 4, 2015****Salt Lake City, UT**www.aihce2015.org**National COSH Conference on Worker Safety and Health.****June 2-4, 2015****Baltimore, MD**

The conference program will begin at 1 PM on Tuesday, June 2, with Regional Networking Roundtables, followed by afternoon workshops (registration begins at 11 AM). And join a special optional Health and Safety Stand-UP on Friday, June 5th. Registration now open at <http://www.coshnetwork.org/general-conference-information-and-logistics>

Promoting Health & Safety for Workers with Disabilities:**Realizing the Promise of the ADA****June 9-10, 2015**

Chicago, Illinois

The Americans with Disabilities Act turns 25 this year! This conference will explore its impact in the workplace. Continuing education credits will be available for completing 7 contact hours. Information on the conference at registration website. <http://www.cvent.com/d/srqmr2> For more information: Marsha Love at lovem@uic.edu (312) 996-9568

Supervising Asbestos Abatement Projects – Initial Course**June 22-26, 2015****Chapel Hill, NC**

This 4 1/2 day, EPA approved course provides a comprehensive discussion of the practices and procedures used in asbestos abatement projects. It is designed to meet the OSHA requirement for a "competent person" and the EPA requirement for an "accredited supervisor" to supervise asbestos abatement projects. Includes techniques on set-up, sampling, respiratory protection

and other key aspects to assist in understanding the principles and practices of worker health and safety in asbestos-related work.

<http://osherc.sph.unc.edu/continuing-education/courses/supervising-asbestos-abatement.html>

The Future of Occupational Health Symposium

June 24-25, 2015

Seattle, WA

The symposium (<http://deohs.washington.edu/future/symposium>) will bring together Thought Leaders to reflect on the future of occupational health in regard to practice, policy, research, and the education of practitioners, businesses, and workers. In this highly interactive symposium, participants will be called upon to develop an actionable agenda to address the changing needs of the field of occupational health.

The symposium will be the culmination of the Future of Occupational Health Speaker Series (<http://deohs.washington.edu/future/calendar>), sponsored by the Department of Environmental and Occupational Health Sciences in the University of Washington School of Public Health. Learn more about the symposium:

<http://deohs.washington.edu/future/symposium>; register at

<https://osha.washington.edu/professional-development/course/foh> or for questions contact Marissa Baker, Symposium/Speaker series organizer at futureoh@uw.edu

38th Annual Occupational Safety and Health Summer Institute

July 26-31, 2015

Portsmouth, Virginia

The Summer Institute is an integral and long established part of the Continuing Education Program at the North Carolina Occupational Safety and Health Education and Research Center (NC OSHERC) at The University of North Carolina at Chapel Hill. The Summer Institute offers a week-long interdisciplinary conference with over 30 courses varying in length from one to five days. Courses include, Occupational Health Nursing Certification Review, OSHA Recordkeeping Rules_Implementing World-Class Ergonomics_Biosafety for Safety and Health Professional (Certified Biological Safety Professional Review) and much more. Occupational Health Nurses and Physicians, Safety Professionals, Industrial Hygienists and others with an interest in community and occupational health are encouraged to attend. It provides the opportunity to complete the requirements for three Technician Certificate Programs (IH, Safety, and Environmental). Registration and class lists will be open in March 2015.

NIOSH-Approved Spirometry Refresher Training

June 26, 2015

Coralville, IA

NIOSH approved training is designed to provide a review of current spirometry testing standards and guidelines, common errors and corrective actions, and how to differentiate between normal, obstructive, restrictive, and mixed lung disease patterns. This course is intended for nurses, medical assistants, and other occupational health and safety practitioners who are responsible for conducting spirometry in the workplace or other settings. Contact: Contact Megan Meyer at megan-cz-meyer@uiowa.edu or 319-335-4684 for more information or to get registered.

Certified Hazardous Materials Manager (CHMM) Review Course

September 21-24, 2015

Chapel Hill, NC

The **4-day** Certified Hazardous Materials Manager (CHMM) Review Course is designed to provide a review of the major subject areas defined by the [Institute of Hazardous Materials Management](#). Attendees are assumed to have a basic understanding of the fundamentals of each of these subject areas.

<http://osherc.sph.unc.edu/continuing-education/courses/chmm-review.html>

Certified Safety Professional (CSP) Review Course

November 2-6, 2015

Chapel Hill, NC

This 4 1/2 day course is designed to provide a comprehensive review of the field of safety and related areas through lectures by qualified faculty with extensive experience in the safety field. Sample problems and discussion will also be used as teaching methods. Useful tips on study techniques will be covered. The course is specifically designed to assist participants in preparing for the Core (ASP) and Comprehensive/Specialty (CSP) examinations. This course will provide you with an overview of the areas that will be the focus of your exam preparation efforts and highlight any weak areas you may have. Others needing a comprehensive review are also encouraged to attend.

<http://osherc.sph.unc.edu/continuing-education/courses/certified-safety-professional-review.html>

Ongoing Educational Courses

Graduate Certificate Program in Occupational and Environmental Health: Georgetown University is pleased to announce a new graduate-level Certificate in Occupational and Environmental Health Program (COEH). The COEH is designed for safety and health practitioners with strong science backgrounds who are interested in targeted graduate-level education. The 12-credit program can be completed in two semesters of evening classes, and enables students to integrate scientific exposure assessment through occupational hygiene and safety science methods, assess toxicological information about disease outcomes, and develop and apply interventions to reduce exposure to occupational and environmental hazards including in the workplace, the community, and the larger environment. Completion will ensure that educational requirements will have been met to permit students to sit for the Certified Industrial Hygienist (CIH) examination or the Certified Safety Professional (CSP) examination. Please explore our Web site at <http://coeh.georgetown.edu> or contact Ms. Sarah Shohet at Sarah.Shohet@georgetown.edu for more information.

Master International Occupational Safety and Health

The main objective of the Master International Occupational Safety and Health is to train professionals in the field of Occupational Safety and Health (OSH). Therefore, we offer tools for research and work in OSH, both in Latin American countries as well as at an international level.

We offer an international and interdisciplinary training in global OSH with focus on project-based learning. The two-year program is held in Spanish (first year), and English (second year). In order to ensure maximum flexibility and efficiency, the master program is based on the concept of blended learning. The Master includes:

- Three short-term modules with compulsory attendance (2 in Latin America, 1 in Munich)
- Research project work, during which students receive support from local tutors
- Online courses with discussions, case-based e-learning, etc.
- Master thesis

Fundamentals of Industrial Hygiene - Online

August 18 to December 1, 2015

NC Occupational Safety and Health Research Center, University of North Carolina at Chapel Hill

This course closely follows the Fundamentals of Industrial Hygiene course presented face-to-face at annual [Summer and Winter Institutes](#) presented by the NC OSHERC at the University of North Carolina at Chapel Hill. The online course is a self-paced course to be completed within the dates above. This course is an introduction to the basic concepts of Industrial Hygiene. If you have recently assumed Industrial Hygiene responsibilities or you have experience in other aspects of Safety, Health or Environmental areas and would like to learn more about Industrial Hygiene, then this is the course for you. The course participants will become familiar with the basic terminology, calculation methods, essential concepts and key principles involved in the practice of Industrial Hygiene. Registration for the fall semester will be open in May 2015. <http://osherc.sph.unc.edu/continuing-education/courses/industrial-hygiene-fundamentals-online.html>

Fundamentals of Occupational Safety - Online

August 18 to December 1, 2015

NC Occupational Safety and Health Research Center, University of North Carolina at Chapel Hill

This course closely follows the Fundamentals of Occupational Safety course presented face-to-face at annual [Summer and Winter Institutes](#) presented by the NC OSHERC at the University of North Carolina at Chapel Hill. The online course is a self-paced course to be completed within the dates above. This course covers the fundamentals of occupational safety and ergonomics with emphasis on legislation of industrial safety and ergonomic programs, including hazard recognition, analysis, control, and motivational factors pertaining to industrial accident and musculoskeletal disorder prevention. The course is taught in a series of modules and grades are based on completing all module readings and assignments and quizzes. The target audience for

this course is professionals who have primary or collateral job duties in occupational safety and ergonomics as well as those interested in learning more about this subject. Registration for the fall semester will be open in May 2015.

Masters' and Doctoral Training Opportunities

Midwest Center for Occupational Health and Safety Education and Research Center University Of Minnesota, Minneapolis, Minnesota

The mission of the Midwest Center for Occupational Health and Safety (MCOHS) Education and Research Center (ERC) is to ensure a Center of Excellence that provides: 1) cutting-edge interdisciplinary academic and research training to prepare exceptional leaders who make significant contributions to the field of occupational health and safety and 2) continuing education to prepare occupational health and safety professionals to address current and emerging threats to the nation's workforce. This ERC, one of 18 nationwide, was designed in response to a mandate of the National Institute for Occupational Safety and Health (NIOSH) -- to provide an adequate supply of qualified personnel to carry out the purposes of the Occupational Health and Safety Act and reduce the national burden of work-related injury and illness. The MCOHS provides graduate degree programs, continuing education and outreach activities, and serves as a regional resource for industry, labor, federal, state, and local government agencies, agriculture, and other interested parties. Graduates are prepared to assume positions in various institutions including: academic institutions; corporate and industrial settings; health agencies; and health care facilities, among others. Visit the MCOHS ERC Homepage: <http://www.mcohs.umn.edu> or Call toll free: 1-877-36- MCOHS (1-877-366-2647). MCOHS ERC Director: Susan Goodwin Gerberich, PhD (gerbe001@umn.edu) .*Tuition and stipends are available to eligible applicants.*

Online Fundamentals of Industrial Hygiene

Fundamentals of Industrial Hygiene is now being offered online. This course closely follows the Fundamentals of Industrial Hygiene course presented face-to-face at annual [Summer and Winter Institutes](#) presented by the NC OSHERC at the University of North Carolina at Chapel Hill. The next session began August 19, 2014. See website for details: <http://osherc.sph.unc.edu/continuing-education/courses/industrial-hygiene-fundamentals-online.html>

Johns Hopkins Occupational and Environmental Health Nursing Program
Program Description

This interdisciplinary program offers masters and doctoral education for nurses who wish to establish competencies in the area of occupational and environmental health. Supported by the National Institute for Occupational Safety and Health (NIOSH), and a component of the Johns Hopkins Education and Research Center for Occupational Safety and Health (ERC), the Occupational and Environmental Health Nursing program offers Master of Public Health (MPH), joint Master of Science in Nursing/ Master of Public Health (MSN/MPH), and doctoral degrees (PhD* and DrPH). With the exception of the PhD, degree programs can be completed in a part-time format. Many courses are available online.

Master's graduates hold leadership positions in the private sector, federal agencies, consulting, military services, labor unions and other organizations that are concerned with protecting the health and safety of the workforce and community. They are prepared for new opportunities that arise as the field of occupational and environmental health expands. Doctoral graduates enter careers as independent researchers who work in academia, government agencies, and other institutions that focus on the advancement of knowledge in occupational and environmental health. The DrPH program is aimed at integrating and applying a broad range of knowledge and analytic skills in leadership, practice, policy analysis and program management.

The full-time MPH program is 11 months, July-June, and the full-time MSN/MPH program is 18 months, July-December. Part-time online master's programs require a minimum of 4 weeks on-campus. Doctoral programs vary in length. Tuition assistance is available to outstanding candidates.

An online certificate program in Environmental and Occupational Health may be pursued by non-degree students as well as those enrolled in academic programs. The certificate can be completed entirely online.

Further Information visit www.jhsph.edu/erc/oehn or please contact: Dr. Sheila Fitzgerald, (410) 955-4082 sfitzge1@jhu.edu, Johns Hopkins Bloomberg School of Public Health | 615 North Wolfe Street, Room W7503A Baltimore, Maryland 21205.

* PhD in the Department of Environmental Health Sciences

Tuition and stipends are available to eligible applicants.

CIH Online- Register Now!

The Mountain and Plains Education and Research Center is pleased to announce CIH Online. CIH Online exam review and maintenance courses offer practicing industrial hygienists studying for the Certified Industrial Hygiene Exam and safety professionals seeking ABIH and/or BCSP credits an advantage by providing you 24/7 access, peer-to-peer networking, community discussion boards and instructor-led online review sessions. Course are eligible for IH contact hours, IH Ethics contact hours and COC (Continuance of Certification) points through the BCSP. Visit www.CIHonline.org for more information and to register today!

Nursing CNE Activities

The Southwest Center for Pediatric Environmental Health (SWCPEH) is one of 11 pediatric environmental health specialty units in the United States. SWCPEH is considered Region 6, serving Texas, Louisiana, Oklahoma, Arkansas, and New Mexico. SWCPEH is a FREE service offering consultations, education, referrals, and resources regarding pediatric environmental health issues to healthcare providers or community members. SWCPEH can provide services for any issue affecting pediatric health, from Asthma to Bed Bugs. You can contact SWCPEH at: 1-800-901-5665 or visit our website for more information at: www.swcpeh.org

SWCPEH has recently developed four new Nursing CEU courses covering hot topics in environmental health including reproductive & developmental toxicology, hydrofracturing, the environmental effects on academic performance, and asthma triggers. Each course is eligible for 1 nursing continuing education contact hour. You can access these courses free of charge at: http://www.swcpeh.org/providers_ceupres.asp.

US-Mexico Border Health Training Opportunity

The South Texas Environmental Education and Research (STEER) Program of the University of Texas School of Medicine-San Antonio (UTSOMSA) provides in vivo training experiences at the US-Mexico Border for medical students, residents and other health professionals in an unique and informative setting. STEER engages nearly 100 instructors, most of them volunteers, including health department leaders, community healthcare workers, and professors, to teach the dozens of half to full-day segments that make up the 4-week program.

STEER program is offered monthly if there are at least three qualified applicants. Limit of 10 students per rotation. See the website <http://steer.uthscsa.edu> for information and a downloadable application, or contact directly: steer@uthscsa.edu.

NIOSH Approved Spirometry Courses

All the currently approved NIOSH spirometry courses which are available are listed at <http://www2a.cdc.gov/drds/spirometry/schedule.asp>

Education and Research Center (ERC) Courses
