### ***AOEC Activities, Announcements, and Funding Opportunities***

The Board elections are complete for this round. Our congratulations to West Virginia University Occupational Health for winning re-election, Yale Occupational and Environmental Medicine Program for winning a seat after a one year hiatus, and Rebecca Reindel. Our congratulations and welcome to the winners and our thanks to those who were willing to serve.

A reminder that AOEC will once again have a presence at the American Public Health Association (APHA) annual meeting in Chicago. The APHA meeting runs from October 31 to November 4 with most activities being in the McCormick Center. The AOEC Annual Breakfast will be in McCormick W190a on Sunday, November 1 from 8 am until 9. As usual, we share the space with the Occupational Health Section business meeting. Students from the Occupational Health Internship Program (OHIP) will be presenting on Tuesday, Nov. 3 at 4:30 pm in session 4442.0, and AOEC staff will be in the exhibit hall at Booth 1739 throughout the conference.

From the Rhode Island COSH: There is a growing and positive trend in green construction to include workers' safety and health into green building design and construction. The U.S. Green Building Council's system of LEED (Leadership in Energy and Environmental Design) ratings is the best known green building approach. Developers and builders can now qualify for the Prevention through Design LEED credit by integrating design strategies that address worker safety. For building enclosure systems, as an example, the new credit calls for taking into account how personnel will safely clean or repair exterior cladding, windows, shading devices, skylights and interior atrium features. <http://www.usgbc.org/credits/preventionthroughdesign>

### ***View from Vermont Avenue by Katherine Kirkland, Executive Director***

Washington is still hopping but we have a budget and will not have a shut-down in December. That said this is only the budget. It will now be up to the House and Senate Appropriations committees to produce legislation parceling out the funds to the various federal agencies and programs. As noted in the July E-News, the House and Senate budget proposals are a mixed bag for occupational health. MSHA faces cuts under either House or Senate budgets. NIOSH faces cuts under the Senate budget but the House actually proposed a slight increase. With no

Sen. Tom Harkin to protect it, the Agriculture, Forestry and Fishing (AFF) budget is gone under the Senate budget. However, the Education and Research Centers are saved under both budgets. OSHA on the other hand not only faces cuts under both budgets but the silica rule is blocked/delayed under both. We can hope that with the elimination of the sequestration, there may be some wiggle room for the AFF budget.

The other bit of good news out of Capitol Hill is that Sen. Kirsten Gillibrand has announced that the James Zadroga 9/11 Health and Compensation Reauthorization Act, a bill to permanently extend and fully fund the 9/11 health and compensation programs, has garnered 61 Senate cosponsors, including 15 Republicans. There are also reported to be 237 cosponsors in the House of Representatives. This should mean passage in both Houses of Congress.

### ***New from Federal and State Agencies***

#### **NIOSH**

NIOSH and the American Industrial Hygiene Association<sup>®</sup> (AIHA) jointly introduced a new initiative called “Safety Matters” that is intended to teach young people about work safety and health. [Safety Matters](#) is based on NIOSH’s “[Youth@Work: Talking Safety](#)” foundation curriculum in occupational safety and health, which was developed for schools nationwide. The new program is a one-hour interactive teaching module and PowerPoint presentation targeted to students in grades 7 through 12, and can be delivered by educators and safety professionals.

Recognizing the importance of aging in the context of work, NIOSH recently established the [National Center for Productive Aging & Work \(NCPAW\)](#), hosted by the Office of Total Worker Health<sup>®</sup>. The mission of the center is to: 1) promote age-related research; 2) develop and promote translational products, best practices, and interventions to facilitate an aging-friendly workplace; and 3) build and foster relationships with extramural researchers and partners.

#### **EPA**

The [Clean Power Plan](#) (CPP) was officially published in the Federal Register, marking an important step toward the plan’s implementation throughout the United States. CPP is strongly grounded in science and the law, and provides states with broad flexibilities to design and implement their own plans to limit carbon pollution.

### **Positions Available**

#### **Occupational Medicine Physician**

UConn Health has an exciting opportunity available for an Occupational Medicine physician, to join the Division of Occupational and Environmental Medicine (DOEM), at the Assistant/Associate Professor level. DOEM is engaged in clinical care, education, research, and policy development. Candidates for this position should have a strong interest in teaching, research, and resident/medical student supervision in addition to providing direct clinical care. The clinical and service opportunities and responsibilities of this position include clinical consultative and primary care services in occupational medicine and employee/student health

on the Farmington campus, and the provision of subject area policy guidance to a major insurance carrier. The position encourages collaborative initiatives that advance the field of occupational medicine. Candidates with active research or related support are encouraged to apply and will be accommodated.

We offer a collegial environment, faculty appointment, competitive salary and benefits. Must be BC/BE in Occupational Medicine. No J1 or H1 visas. Interested candidates should submit a cover letter and curriculum vitae at <https://jobs.uchc.edu>, search no. 2016-273.

*UConn Health is an affirmative action employer, in addition to an EEO and M/F/V/PWD/PV employer.*

### **The UT Health Science Center at Tyler-Multiple Faculty Positions**

The University of Texas Health Science Center at Tyler, School of Community Health and Health Professions, invites applications and nominations for candidates for chairs of the following new departments:

- 1) Healthcare Policy, Economics, and Health Management;
- 2) Epidemiology and Biostatistics; and
- 3) Health Promotion and Community Health

Successful candidates will be expected to be able to qualify for the rank of professor or associate professor, be committed to education (curriculum development and teaching excellence) and mentorship, and have a demonstrated record of scholarship through publication and externally funded research and project initiatives. In addition, 1-3 years or experience in management and administration in an academic or equivalent setting is preferred. Candidates must hold a MD, PhD, DrPH or equivalent degree in a public health or related discipline. A competitive package will be offered to the chosen candidates.

Interested applicants should e-mail current curriculum vitae and arrange for three letters of reference to: David Lakey, MD, Senior Vice President for Population Health, Dean, School of Community Health and Health Professions, The University of Texas Health Science Center Tyler 11937 US Hwy 271, Tyler, Texas, 75708-3154, [chhp@uthct.edu](mailto:chhp@uthct.edu) *UTHSCT is an equal opportunity employer. This position is security sensitive and subject to Texas Education Code, 51.215, which authorizes the employer to obtain criminal history information. EEO/AA EMPLOYER M/F/V/D*

### **Director of Student and Employee Health, Assistant Professor, Family Medicine**

The Department of Family and Community Medicine at Meharry Medical College is seeking a BC/BE Occupational Medicine Physician to oversee Meharry's Student and Employee Health Clinic. This position would include a faculty appointment as Assistant Professor with responsibilities related to demonstrating excellence in clinical medicine, teaching, and scholarly activity. Previous clinical experience is required, academic experience is preferred.

The Student and Employee Health Clinic is located in Meharry's Comprehensive Health Building on the campus of Meharry Medical College in Nashville, Tennessee. Its mission is to offer convenient, high-quality health care by providing acute and preventive health services for Meharry students and employees. Services to be provided include: acute illness and injury

management, physical examinations, immunizations, tuberculosis screening, participation in necessary campus organizations, maintaining protocols required through various governing sources, as well as other health services.

As a faculty member in the Department of Family and Community Medicine, the Director of Student and Employee Health will have an opportunity to participate in academic research, as well as be expected to assist in the operation of Meharry's Occupational Medicine Residency Program. The Occupational Medicine Residency Program is the only such program in the state of Tennessee and has been accredited by the Accreditation Council for Graduate Medical Education (ACGME) since 1978. Meharry Medical College is an equal opportunity employer and welcomes applications from women and members of minority groups, as well as others who would assist the College in furthering its missions in research, teaching, and clinical care.

**Interested candidates should send a copy of their curriculum vitae to:** Bridgette Kallon, M.B.A., Fiscal Officer, School of Medicine, Meharry Medical College, 1005 Dr. D. B. Todd, Jr. Boulevard, Nashville, Tennessee 37208 [bbirch@mmc.edu](mailto:bbirch@mmc.edu) or 615-327-6090

### **Duke Occupational and Environmental Medicine Research Faculty Position**

The Division of Occupational and Environmental Medicine, Department of Community and Family Medicine (CFM) is seeking applicants for Associate/Full Professor positions with a primary emphasis on occupational safety and health, environmental health, and intervention research in prevention and population health. Successful candidates will have a history of relevant externally funded research, research program development, and research productivity. Preference will be given to candidates with experience and/or a strong interest in interdisciplinary research. The successful candidate will be expected to develop an extramurally funded, independent research program. The Department of CFM was created to improve healthcare in the Carolinas and is a bridge between the Duke Health System and the communities we serve. Made up of a diverse range of Divisions including Occupational and Environmental Medicine, Family Medicine, Physician Assistant, and Community Health, the Department of CFM encompasses the core disciplines required to tackle the difficult task of improving population health. Opportunities are available for research collaboration with faculty in the Department of CFM, School of Medicine, Nicholas School of the Environment, Duke Global Health Institute, Fuqua School of Business, and the School of Nursing.

**Minimum Qualifications:** Candidates should have doctoral level training in health services research or epidemiology (PhD, ScD, or MD with epidemiology training) or a related field with a strong record of research including a focus on design, analysis, and methodological development studies. Knowledge of advanced statistical methods is required as is the ability to manage and link large administrative datasets. Strong organizational and communication skills are required. Candidates must have a strong record of scholarship with experience as a principal investigator and collaborator on externally funded research.

**To Apply:** Applications should be submitted using Academic Jobs Online

<https://academicjobsonline.org/ajo>

Additional information on the position may be obtained from: Dennis Darcey, MD, MSPH, Division Chief, and John Dement, PhD, Duke Occupational and Environmental Medicine:

[dennis.darcey@duke.edu](mailto:dennis.darcey@duke.edu)

Duke University is an Affirmative Action/Equal Opportunity Employer committed to providing employment opportunity without regard to an individual's race, color, religion, age, gender, sexual orientation, national origin, genetic information, veteran status, or disability.

### **University of Rochester Medical Center: Full-Time Faculty Position**

The center is seeking a board-certified / eligible Occupational Medicine Physician to join our group at the University of Rochester, Division of Occupational & Environmental Medicine. This is a combined clinical and academic position that involves patient care, teaching, and the opportunity for clinical research.

This physician will work in two clinical programs. The first program is a large, hospital-based Occupational & Environmental Medicine Clinic that serves local industry and provides employee health care for the University of Rochester Medical Center. The second program is Finger Lakes Occupational Health Services, a publicly-funded, public health model clinic, which is part of the New York State Occupational Clinics Network.

Basic qualifications for this position include a M.D. or D.O. degree, New York State Medical License, ABPM-OM board certification or eligibility, BCLS certification, MRO certification, and NRCME certification. One to three years of clinical experience is desired. Clinical responsibilities will include MRO activities, completion of various physical examinations, work-related injury / illness care, independent medical examinations, and workplace investigations.

The Division of Occupational & Environmental Medicine is part of the Department of Environmental Medicine, which includes a major NIEHS research center and a highly ranked environmental medicine/toxicology PhD research training program. We have a close-knit occupational medicine community with Occupational Medicine Grand Rounds held monthly throughout the academic year.

Interested candidates should submit their curriculum vitae and date of availability to Bruce A. Barron, M.D. ([bruce\\_barron@urmc.rochester.edu](mailto:bruce_barron@urmc.rochester.edu)). The University of Rochester is an Equal Opportunity Employer.

### **Occupational Physician-Perelman School of Medicine, UPENN**

The Department of Emergency Medicine at the Perelman School of Medicine at the University of Pennsylvania and Clinical Care Associates seeks an Occupational Medicine Clinical Physician with experience in the field of Occupational and Environmental Medicine (OEM). The appointee will act as an attending physician and oversee the work of nurse practitioners at the Hospital of University of Pennsylvania (HUP) and will be the Medical Director of Occupational Medicine at the sister Penn Presbyterian Medical Center (PPMC). Clinical and administrative responsibilities include but are not limited to evaluating, stabilizing, and providing initial treatment to patients who present to OM, evaluating and treating work related injuries and illnesses, making determinations regarding work relatedness of conditions, and making recommendations concerning modification of job functions. The University of Pennsylvania has a strong and active Occupational Medicine Residency training program supported by grants from both NIOSH and HRSA. The innovative training program has both internally and externally based trainees. As the

appointee will assume responsibilities in the residency training program, competence and experience in Graduate Medical Education is highly desirable. Evidence of scholarship is sought. The position also has substantial opportunities for collaborative research, including an NIEHS funded Center of Excellence in Environmental Toxicology, and an NIEHS Superfund Research and Training Center with a focus on asbestos-containing waste. The Clinical Physician must be currently enrolled or have successfully completed a post-graduate residency training program, must be in good standing in the residency program, and have performed a sufficient number of procedures, evaluations, or treatments upon which the Emergency Medicine faculty and OEM faculty can assess clinical ability. The appointed physician must possess a license to practice medicine or osteopathy in Pennsylvania. Competence in specific areas relevant to the practice of Occupational Medicine in a large tertiary Medical System such as Travel Medicine, Wellness and/or musculoskeletal diseases will be an advantage. Other duties of the position include but are not limited to laceration repair, EKG interpretation, spinal immobilization, abscess incision and drainage, splinting of single fracture/sprains, and foreign body removal. For more information, candidates may contact Suzanne Simon, CCA Physician Recruiter, at [suzanne.simon@uphs.upenn.edu](mailto:suzanne.simon@uphs.upenn.edu) or [610-902-1902](tel:610-902-1902).

### **BC/BE Occupational Medicine Physician Opportunity – New York**

Mount Sinai -New York City, NY

-2 Staff OM Physicians

-Attractive Benefits Package

-Generous Salary Depending on Experience and Expertise

Staff Physician Occupational Medicine Opportunity

The requirements for this position include BC/BE in Occupational Medicine, Internal Medicine or Pulmonary Medicine. Candidate must possess/or be eligible for a NYS Medical License.

Responsibilities include outpatient care, clinic leadership, teamwork, and supervision of ancillary providers. The position also offers the opportunity for graduate teaching.

The physician provides direct patient care in the clinic office setting and may provide consultation in the hospital inpatient setting.

The physician acts as a member of the treatment team, ensures the delivery of quality care, and maintains professional competence.

The physician has the knowledge and skills to provide evidence-based clinical evaluation and treatment for injuries and illnesses that are occupationally or environmentally related.

Occupational Medicine core competencies:

1. Clinical OEM
2. OEM Related Law and Regulations
3. Environmental Health
4. Work Fitness and Disability Integration
5. Toxicology
6. Hazard Recognition, Evaluation, and Control
7. Disaster Preparedness and Emergency Management
8. Health and Productivity
9. Public Health, Surveillance, and Disease Prevention

#### 10. OEM Related Management and Administration

Clinical services will be rendered in Manhattan, Staten Island, and/or Yonkers.

Physician will report to Division Chief and Director of the Residency Program.

This position must be filled quickly, so please forward qualified CVs to Nyla Medlock at [nmedlock@medlockconsulting.com](mailto:nmedlock@medlockconsulting.com) or call TX Cell 806.239.6952 at any time regarding this phenomenal opportunity!

#### **Two Physician Positions at CDC/NIOSH in Cincinnati, Ohio**

The Hazard Evaluations and Technical Assistance Branch (HETAB), Division of Surveillance, Hazard Evaluations, and Field Studies is seeking two physicians with specialized training or experience in preventive medicine, occupational medicine, or other relevant medical fields and training or experience in public health (including epidemiology).

Position 1 serves as a Medical Officer in the Health Hazard Evaluation (HHE) Program. We are seeking an individual who is interested in a wide range of occupational health issues across all industries and has a desire to interact with workers and managers at workplaces throughout the nation. The primary responsibility is carrying out field investigations of work-related health hazards in response to HHE requests from employers, employees, and unions. Investigations generally involve a walk-through survey, interviews with employees, and review of health-related data, and may include questionnaires, biological monitoring, and medical exams and tests. Authorship of technical reports and journal articles integrating medical, epidemiological, and environmental data is a key responsibility. For information, contact Bruce Bernard, MD; Chief, HETAB Medical Section at (513) 841-4589 or [bbernard@cdc.gov](mailto:bbernard@cdc.gov).

Position 2 serves as the Fire Fighter Fatality Investigation and Prevention Program (FFFIPP), Medical Component Team Leader. The FFFIPP investigates the on-duty deaths of fire fighters due to medical causes (mostly cardiovascular and heat stroke). The Team Leader is responsible for setting annual program goals, objectives, priorities, and milestones; carrying out field investigations; writing and reviewing reports, and overseeing the work of at least one other investigator. Disseminating the findings to stakeholders, and representing the FFFIPP on fire service committees are key responsibilities. Experience with the fire service, doing cardiac-related medical fitness for duty evaluations, and working with consensus standard committees is preferred. For information contact Allison Tepper, PhD, Branch Chief, HETAB at (513) 841-4425 or [atepper@cdc.gov](mailto:atepper@cdc.gov).

Both positions involve responding to questions from the public and participating in conferences, symposiums, and meetings to represent NIOSH. In addition to technical expertise, the positions require excellent oral and written communication skills, strong interpersonal skills, and preference for working in a team environment. These full-time positions are based in Cincinnati, Ohio, and require some domestic travel. Salary is comparable to a GS level 13-14 depending upon qualifications.

#### **Tenure Track Position-Global Environmental Health Sciences, Disaster Management**

Tulane University School of Public Health & Tropical Medicine invites applications for a tenure track faculty position in the Department of Global Environmental Health Sciences, with rank determined by experience and accomplishments. The successful candidate will join our accredited graduate program in Environmental Health and participate in research and teaching in the areas of global environmental health science and disaster management. Applicants should demonstrate strong interest or experience in interdisciplinary environmental public health research and teaching in one or more of the following areas of disaster management: planning, response, and/or recovery. In addition to individual research and teaching, the successful candidate will have opportunities to collaborate with other faculty in the Department of Global Environmental Health Sciences, other departments in the School of Public Health and Tropical Medicine, and other schools and centers within Tulane University. Building collaborative relationships with local and state officials in disaster management is expected.

Applicants must possess a terminal degree in public health or other relevant field. For consideration at the rank of Associate Professor or above, candidates must have an established, vibrant research program with a history of external funding.

Applications will be accepted online through Interfolio beginning September 4, 2015 and continue until the position is filled. Use the link below to submit a cover letter, CV, research plan, and contact information for three (3) references: Application URL:

<http://apply.interfolio.com/31171>

Questions about the position or requests for additional information may be directed to:

Roy J. Rando, ScD, CIH, Professor and Vice Chair

Department of Global Environmental Health Sciences

Tulane University School of Public Health & Tropical Medicine

1440 Canal Street, Suite 2100

New Orleans, LA 70112-2704

Tel: 504-988-3870 [rando@tulane.edu](mailto:rando@tulane.edu)

Tulane is an Equal Opportunity/Affirmative Action employer.

### **Chief Medical Officer with the U.S. Railroad Retirement Board (RRB)**

As Chief Medical Officer for the Railroad Retirement Board, the person selected will provide advice and support to the Director of Programs on issues relating to disability under the Railroad Retirement Act and sickness under the Railroad Unemployment Insurance Act. Details at <https://www.usajobs.gov/GetJob/ViewDetails/416101500>

Please check out the site at [http://www.rrb.gov/opa/agency\\_overview.asp](http://www.rrb.gov/opa/agency_overview.asp) for more information about our Chicago headquarters agency.

### **The Los Angeles Department of Water and Power (LADWP) - Physician**

LADWP is seeking to fill a full-time Physician II position for LADWP's in-house medical office in Los Angeles, CA. Clinic hours are Mon-Fri, 7am – 4pm; closed on weekends and holidays. Position offers competitive salary and excellent benefits for the successful candidate.

## **Examples of Duties**

- Performs Department of Transportation (DOT), and Occupational Safety and Health Administration (OSHA) mandated medical surveillance evaluations;
- Treats occupational injuries in compliance with the California State Workers' Compensation medical guidelines;
- Performs post offer medical evaluations;
- Performs drug recognition and alcohol screenings;
- Review of return to work and treating provider notes;
- Responds to on-site medical emergencies;
- Coordinates and reviews work of per diem contract physicians;
- Assists Medical Director in occupational health administration as necessary and may act for the Medical Director during absences.

## **Requirements**

- M.D. or D.O. Degree;
- Board Certification in Occupational Medicine;
- License to practice medicine in the State of California;
- Current state and Federal DEA certification;
- Current Federal Motor Carrier Safety Administration (FMCSA) medical examiner certification;
- Certification by a recognized agency as a Medical Review Officer (MRO) for the federal DOT testing program;
- Valid California driver's license;
- Knowledge of OSHA regulations, workplace health and safety concepts;
- Demonstrated interpersonal and collaboration skills.

Please email Curriculum Vitae with three references by November 30, 2015, to LADWP Human Resources: [Antrecia.Sims@ladwp.com](mailto:Antrecia.Sims@ladwp.com). For technical questions, please contact Dr. Leslie Israel at (213) 367-2004. *The City of Los Angeles is an Equal Employment Opportunity Employer. This position will be filled as an exempt, at-will management position that will not accrue any civil service tenure, contractual employment rights or due process rights.*

## **Research Director**

The Environmental Health Strategy Center is seeking that rare individual that knows the science and thrives on data analysis, who can also translate complex information to effectively communicate with lay audiences and persuade decision makers.

The Research Director ensures the scientific integrity and authoritative basis for all advocacy and non-advocacy programs of the [Environmental Health Strategy Center](#) and our partner organization, [Prevent Harm](#).

*Qualifications:* The minimum qualifications include at least five years of related work experience and a relevant PhD degree or demonstrated equivalent analytical capacity. Additional preference may be given to those with strong working knowledge of environmental public health science, green chemistry and engineering, and/or chemical-related market analysis. Find the job announcement [here](#) and a full job description [here](#).

*About our Organization:* The Environmental Health Strategy Center works for healthy people and a healthy economy by promoting safer, more sustainable goods, services, and communities. The Center has pioneered science-based programs and policies that advance green chemistry and bio-based manufacturing. As a public health organization, we collaborate with diverse partners to prevent harm and seek systemic solutions that are socially just (see: [www.ourhealthyfuture.org](http://www.ourhealthyfuture.org)).

*To Apply:* Send a cover letter, writing sample, and resume to Jenny Rottmann, [jrottmann@preventharm.org](mailto:jrottmann@preventharm.org) Managing Director. The position will remain open until filled. The Environmental Health Strategy Center is an equal opportunity employer that values diversity, inclusion and social justice. We offer a competitive salary and excellent benefits. Our office is located in Portland, Maine – a city and state renowned for a high quality of life and affordability.

### **Georgia Southern University, Assistant Professor of Environmental Health Sciences**

The Department of Environmental Health Sciences in the Jiann-Ping Hsu College of Public Health (JPHCOPH) invites applications and nominations for a tenure track position at the rank of Assistant Professor. The successful candidate is expected to contribute to departmental and college teaching, and develop an extramurally funded research program focusing on one or more of the following: Occupational Health and Safety, Risk Assessment, or Chronic Diseases. The successful candidate is expected to teach - graduate and undergraduate courses; serve on dissertation committees; provide service to the community; mentor students; serve on department, college, and university committees; engage in scholarship/creative activity leading to presentations at professional meetings and publications in peer-reviewed journals; and be actively involved in professional associations and outreach activities. This position requires experience in teaching, research, and service in Environmental Health Sciences or relevant disciplines. The position is a 9-month, tenure track appointment, and the salary and benefits are competitive and commensurate with qualifications and experience.

#### Required Qualifications:

- Earned doctorate in Environmental Health Sciences or closely related discipline by August 1, 2016.
- Commitment to teaching, academic program development, research, and service that is consistent with the College's vision and goals.
- Proven record of or demonstrated potential for securing extramural research funding.
- Commitment to service within the University, the profession, and community.
- Ability to contribute to a positive work environment in the College and University.
- Must be authorized to work in the United States for the duration of employment without assistance from the institution.

Screening of applications begins **November 1, 2015**, and continues until the position is filled. The preferred position starting date is August 1<sup>st</sup>, 2016. A complete application consists of a letter addressing the qualifications cited above; curriculum vitae; and the names, addresses, telephone numbers, and email addresses of at least three professional references. Other documentation may be requested. Only complete applications and applications submitted electronically will be considered. The University Systems of Georgia requires that as a condition for employment finalists will be required to submit to a background security investigation. More information about the institution is available through <http://www.georgiasouthern.edu> or <http://jphcoph.georgiasouthern.edu/>. Applications and nominations should be sent to:

Joseph Telfair, DrPH, MSW, MPH, Professor and Dual Chair,  
Search Chair, Search #67360  
Dept. of Environmental Health Sciences,  
Jiann-Ping Hsu College of Public Health  
Georgia Southern University  
P. O. Box 8015  
Statesboro, GA 30460-8015  
Electronic mail: [jphcophsearches@georgiasouthern.edu](mailto:jphcophsearches@georgiasouthern.edu)

#### **Tenure Track Position-University of Wisconsin-Whitewater**

The Department of Occupational & Environmental Safety & Health (OESH) at the University of Wisconsin-Whitewater invites applications for a tenure-track position commencing in August 2016 with a possibility of an earlier starting date. Responsibilities include teaching graduate and undergraduate courses, academic advising, curriculum development, supervision of fieldwork internships, research/scholarship, and service. All faculty at UW-Whitewater may be required to teach online and hybrid courses, weekend and/or evening classes, and provide service to the university and local community in a variety of modalities, including leading Learning Communities, mentoring students, and providing development opportunities for colleagues, schools, and community groups.

A research record in the area of environmental safety and health or the ability to develop and carry out a research agenda is required. This is a renewable nine-month appointment with summer school options available. Preference will be given to applicants at the assistant professor level, although well qualified applicants at higher levels will be considered. The successful candidate will have a doctoral degree (i.e., PhD, DSc, MD, or ABD with known defense date) in an environmental safety & health-related field, or a closely related area including but not limited to risk management, environmental health, engineering, physical sciences, or public health. Candidates with professional experience in OESH are preferred. Professional certifications are also desirable (e.g., CSP, CHMM, REM, etc.). Good oral and written communication and interpersonal skills are essential. The Department seeks applicants with demonstrated commitment to diversity and to diverse learners. Salary is competitive and commensurate with experience and qualifications.

Application: Applications received by October 31<sup>st</sup>, 2015 are ensured review. Position will remain open until filled. Materials required for application include: Letter of application,

curriculum vita, non-official transcripts of graduate education, names, titles, addresses, telephones, and emails of three (3) professional references, and statement of personal philosophy of environmental safety & health education. Additional materials may be required from final candidates.

Application materials must be submitted electronically through the Talent Acquisition Management System. Only complete applications will be considered. Review of qualified applications will begin on October 31<sup>st</sup>, 2015 and will continue until the position is filled. To apply for this position and upload your materials, go to: <https://my.uww.edu/employment/unclassified.html> and select OESH position (Job ID 10724). Inquiries may be directed to: Dr. Alvaro D. Taveira Tel: (262) 472-5427 email: [taveiraa@uww.edu](mailto:taveiraa@uww.edu)

### ***Fellowships***

#### **Social Science Environmental Health Research Institute at Northeastern University**

The Social Science Environmental Health Research Institute (SSEHRI) invites applications for a postdoctoral fellowship in “Social Science-Environmental Health Collaboration” to start immediately. SSEHRI, at Northeastern since 2012, continues the legacy of the Contested Illnesses Research Group at Brown University, which began in 2000. SSEHRI trains graduate students and postdocs in community-based participatory research aimed at transforming and improving environmental health. By linking environmental health science, sociology, anthropology, science and technology studies, and community-based organizations, SSEHRI develops novel approaches to studying environmental health questions. It currently has 5 faculty members, 1 postdoc, 14 doctoral students, and 2 MA/MPH students. It has extensive collaboration with Silent Spring Institute on multiple grants since 2004, as well as collaborations with breast cancer, environmental health, and environmental justice organizations.

Candidates should send a letter of application, a curriculum vitae, and writing samples (published or unpublished). Three letters of reference, including one from the dissertation advisor should be sent. All materials will go to: Professor Phil Brown, Northeastern University, 318 INV, Boston, MA 02115 or by e-mail to [p.brown@neu.edu](mailto:p.brown@neu.edu). After initial screening, a short list of applicants will be asked to submit their materials to a university portal.

#### **Recruiting for the UW Occupational Health Services Research Doctoral Traineeship**

The University of Washington is actively recruiting for our occupational health services research (OHSR) doctoral traineeship, for Autumn 2016 admission. Please share this notice with anyone who might be a good candidate for our PhD program. Our application deadline is December 15, 2015. As a previous graduate and now Director of the OHSR training program, I'd be happy to discuss details with potential students. Our [Occupational Health Services Research Training Program](#) includes tuition, travel, and research support, as well as a stipend. Our program is one of only two NIOSH-funded OHSR programs in the United States, and is part of the [Northwest Center for Occupational Health & Safety](#), a NIOSH-funded Education and Research Center (ERC). Trainees have the opportunity to participate in ongoing research projects through the

[Occupational Epidemiology and Health Outcomes Program](#), as well as to undertake field-based studies in external organizations such as the [Washington State Department of Labor and Industries](#). Applicants must apply to the Health Services PhD Program and indicate an interest in being considered for the occupational health services research training program. Admission to the training program is contingent upon admission to the Health Services PhD Program. PhD Program application information is available at: <http://depts.washington.edu/hservphd/application>

### **Council of State and Territorial Epidemiologist (CSTE)-Fellowship**

CSTE, in collaboration with the Centers for Disease Control and Prevention (CDC), the Substance Abuse and Mental Health Services Administration (SAMHSA), the Association of Schools and Programs of Public Health (ASPPH), and the Health Resources and Services Administration (HRSA), support this fellowship to train recent graduates in the expanding field of applied epidemiology. The CDC/CSTE Fellowship is designed for recent or impending master's or doctoral-level graduates in epidemiology or a related field who are interested in the practice of public health at the state or local level. While the program provides rigorous training for its participants, it is also designed with flexibility in order to meet the particular interests of the fellow. Fellows are matched to a state health department for a two-year fellowship position based on program area of interest. Each Applied Epidemiology Fellow is assigned to a designated host health agency and two, highly-trained and experienced mentors (primary and secondary). Host health agencies are CDC and CSTE-approved, with demonstrated capacity to provide a fellow with technical training, research opportunities, and practical experience in the application of epidemiologic methods.

Fellow Application Requirements:

- A master's degree (MPH, MSPH or MS) or doctoral degree (PhD, MD, DVM, DrPH) in a public health-related field (i.e. epidemiology, biostatistics, or other public health field)
- Completed coursework in at least four graduate-level epidemiology courses and one graduate level biostatistics course
- Desire to pursue a long-term career at the state or local level
- United States citizenship.

For more information and access to the electronic application, please visit our webpage: <http://www.cste.org/?page=ProspectiveFellows>.

### **Pediatric Environmental Health Fellowship –**

#### **The University of Washington Division of General Pediatrics**

The fellowship is funded through the [University of Washington's NRSA Primary Care Fellowship](#) in conjunction with general internal medicine and family medicine. Grant funding is provided by the National Institute of Health and administered by the Public Health Service Health Resources and Services Administration. Fellows participating in this are eligible for the NIH loan repayment program. We provide two years training in research methods, research experience with an established investigator, and the opportunity to enroll concurrently in the Master of Public Health program. Fellows assume a precepting role in one of our pediatric

residency clinics and provide consultations in our Pediatric Environmental Health Specialty Unit (PEHSU).

The UW Division of General Pediatrics and the affiliated Center for Child Health, Behavior and Development of Seattle Children's Research Institute, the Child Health Institute of the University of Washington, the Harborview Injury Prevention and Research Center, and the Northwest Pediatric Environmental Health Specialty Unit provide rich and diverse mentoring opportunities for Pediatric NRSA fellows. Potential applicants can access further information and apply on the website: <http://nrsafellowship.weebly.com/>

### **Fellowship Training Program in Pediatric Environmental Health – Mount Sinai School of Medicine**

The Mount Sinai School of Medicine invites qualified applicants (MD or PhD) to apply for a 3-year post-residency/postdoctoral fellowship training program in Pediatric Environmental Health sponsored by the National Institute of Child Health and Human Development (NICHD). This program provides training in epidemiology, biostatistics, toxicology, risk assessment, and preventive medicine, and includes course work leading to a Master of Public Health (MPH) degree. The capstone of the fellowship is a mentored research experience that is intended to train fellows in the successful conduct of research and will lead to the production of publishable manuscripts. The mentored research project serves also as the basis for each fellow's MPH thesis. Fellows gain additional training in clinical research, policy development, and evidence-based advocacy. Clinically trained fellows will gain clinical experience in environmental pediatrics through the Agency Toxic Substance and Disease Registry (ATSDR) and the Environmental Protection Agency (EPA) supported Pediatric Environmental Health Specialty Unit. The goal of the program is to produce future research leaders in the emerging field of pediatric environmental health who will be positioned to lead the National Children's Study and populate academic health centers across the United States. Up to two positions are available each academic year. Members of under-represented minorities are strongly encouraged to apply. For a brochure or other information, contact [Damiris.Perez@mssm.edu](mailto:Damiris.Perez@mssm.edu) or phone 212-824-7109.

### **Additional Fellowships**

### ***Conferences and Meetings***

**NORA Interdisciplinary Seminar**

**November 4, 2015**

**Webcast 1:00pm to 2:30pm ET**

Title: Results of Noise Exposure Assessments among Grounds Maintenance Workers at Multiple Universities in NC Speaker: Greg Kearney, DrPH, MPH and Jo Anne Balanay, PhD, MOH, CIH. To access the seminar on November 4th at 1:00pm ET, go to [BLACKBOARD COLLABORATE](#). If needed, [CLICK HERE](#) for a short step by step guide.

### **Supervising Asbestos Abatement Projects – Initial Course**

**November 16-20, 2015**

**Chapel Hill, NC**

This 5- day, EPA approved course provides a comprehensive discussion of the practices and procedures used in asbestos abatement projects. It is designed to meet the OSHA requirement for a "competent person" and the EPA requirement for an "accredited supervisor" to supervise asbestos abatement projects. Includes techniques on set-up, sampling, respiratory protection, and other key aspects to assist in understanding the principles and practices of worker health and safety in asbestos-related work.

<http://osherc.sph.unc.edu/continuing-education/courses/supervising-asbestos-abatement.html>

### **Case Management: Care of Work Related Injuries**

**November 19, 2015**

**Cedar Rapids, IA**

CCMC and nursing CEU credits provided. *For more information, contact:* Heartland Center for Occupational Health & Safety | WORKSAFE IOWA Megan Meyer [megan-cz-meyer@uiowa.edu](mailto:megan-cz-meyer@uiowa.edu)  
319-335-4684

### **Supervising Asbestos Abatement Projects – Refresher Course**

**December 1, 2015**

**Chapel Hill, NC**

This is an EPA- and North Carolina-approved AHERA course that is required to maintain certification as a supervisor of asbestos products.

<http://osherc.sph.unc.edu/continuing-education/courses/supervising-asbestos-abatement-refresher.html>

### **Building Inspection for Asbestos - Refresher Course**

**December 2, 2015**

**Chapel Hill, NC**

This is an EPA- and North Carolina-approved AHERA course that is required to maintain certification as a building inspector for asbestos.

<http://osherc.sph.unc.edu/continuing-education/courses/building-inspection-for-asbestos-refresher.html>

### **Management Planning for Asbestos - Refresher Course**

**December 2, 2015**

**Chapel Hill, NC**

This is an EPA- and North Carolina-approved AHERA course that is required to maintain certification as a management planner for asbestos.

<http://osherc.sph.unc.edu/continuing-education/courses/management-planning-for-asbestos-refresher.html>

**OSHA Respirator Essentials and Fit Testing**

**December 2, 2015**

**Chapel Hill, NC**

This one day course is designed for every health and safety professional involved in respiratory protection. OSHA requirements for a respiratory protection program will be reviewed and hands-on workshops will provide practical experience in both quantitative and qualitative fit testing. At the satisfactory completion of this course, you will receive a Certificate of Completion for Respiratory Fit Testing.

<http://osherc.sph.unc.edu/continuing-education/courses/osha-resp-essentials.html>

**Designing Asbestos Abatement - Refresher Course**

**December 3, 2015**

**Chapel Hill, NC**

This is an EPA- and North Carolina-approved AHERA course that is required to maintain certification as a project designer of asbestos abatement.

<http://osherc.sph.unc.edu/continuing-education/courses/designing-asbestos-abatement-refresher.html>

**2015 NECOEM/MaAOHN ANNUAL CONFERENCE**

**Tips, Tools & Pearls for the Occupational and Environmental Health Professional**

**December 3 & 4, 2014**

**Newton, MA**

The two-day program will offer a wide range of topics and speakers. Online registration is available at <http://necoem.org/events/2015-AC/registration.html>. Please note that the deadline for the early registration rates is October 31, 2015. Complete details at

<http://necoem.org/events/2015-AC/home.html>

**Fit Testing Refresher & Advanced Topics**

**December 4, 2015**

**Trinidad, West Indies**

Sponsored by the University of Cincinnati

<http://www.drmckay.com/rtc-resp-refresher-advanced.shtml>

**23<sup>rd</sup> Annual OHN Certification Review Course**

**January 7-9, 2016**

**Jupiter, FL**

This course is for 20 continuing education contact hours, offered by **Bonnie Rogers and Associates**. The course will be held at the Wyndham Grand Jupiter at Harbourside Place, Jupiter, FL with exceptional prices! For brochure and more information either call (703) 497-2119, fax name and address to (703) 491-9656, or send email request to

[rogersb@email.unc.edu](mailto:rogersb@email.unc.edu).

**Health and Safety in the Arts in Cuba,  
January 24-31, 2016**

**Cuba**

NEW - Spouses, students, and others can be accepted.

The Health in the Arts Program at the University of Illinois at Chicago and Performing Arts Medicine Association (PAMA) announce the 2016 Cuba program arranged by Marazul Travel. Preliminary information is now available and site visits are planned to include Buena Vista Social Club, National Symphony of Cuba, and National Ballet of Cuba. For more information visit [www.artsmed.org/havana-cuba](http://www.artsmed.org/havana-cuba)

**36<sup>th</sup> Annual Occupational Safety and Health Winter Institute**

**February 28 – March 4, 2016**

**Daytona Beach, Florida**

The Winter Institute is an integral and long established part of the Continuing Education Program at the North Carolina Occupational Safety and Health Education and Research Center (NC OSHERC) at the University of North Carolina at Chapel Hill. The Winter Institute offers a week-long interdisciplinary conference with over 25 courses varying in length from one to five days. Occupational Health Nurses and Physicians, Safety Professionals, Industrial Hygienists and others with an interest in community and occupational health are encouraged to attend. The annual Winter and Summer Institutes provide the opportunity to complete the requirements for three Technician Certificate Programs (IH, Safety, and Environmental). Registration opens October 2016. See [NC OSHERC web site](http://www.ncosherc.org) for more details.

**Rocky Mountain Academy of Occupational and Environmental Medicine (RMAOEM)  
Conference**

**March 3rd and 4th, 2016**

**Save the Date**

Joining with Mountain and Plains Education and Research Center (MAP ERC) Annual Research Day. <http://www.rmaoem.org/cme-quar.htm>

**Toxic Substances in the Workplace and the Environment  
Updates in Occupational and Environmental Medicine**

**March 9-12, 2016**

**San Francisco, CA**

UCSF designates this live activity for a maximum of 18.00 AMA PRA Category 1 Credits™.

<http://www.ucsfcmecme.com/2016/MDM16N01/info.html>

**Overview of Respiratory Protection**

**April 19, 2016**

**Cincinnati, OH**

Sponsored by the University of Cincinnati

<http://www.drmckay.com/rtc-overview.shtml>

## **Respirator Selection & Cartridge Change Out Schedule Workshop**

**April 27-28, 2016**

**Cincinnati, OH**

Sponsored by the University of Cincinnati

[http://www.drmckay.com/rtc-resp\\_selection.shtml](http://www.drmckay.com/rtc-resp_selection.shtml)

A comprehensive 2-day program with practice problems completed in class.

## **Fit Testing Workshop (2-day)**

**April 20-21, 2016**

**Cincinnati, OH**

Sponsored by the University of Cincinnati

<http://www.drmckay.com/rtc-workshop.shtml>

## **8th International Conference on Occupational Health and Safety**

**May 8-11, 2016**

**Istanbul**

<http://www.tioshconference.gov.tr/en/>

## **Manganese: Second International Conference**

**September 25-28, 2016**

**New York, NY**

The Second International Conference on Manganese will be hosted by the Department of Preventive Medicine's Division of Occupational and Environmental Medicine at the Icahn School of Medicine at Mount Sinai, September 25-28, 2016. This conference is the 28th conference of the International Neurotoxicology Conference series. For more information, visit:

<http://events.mountsinaihealth.org/event/manganese2016>

## ***Ongoing Educational Courses***

### **Master International Occupational Safety and Health**

**Ludwig-Maximilians-Universität, München**

The Master International Occupational Safety and Health offers an international and interdisciplinary formation in Occupational Safety and Health with an emphasis on project - based learning. Besides Latin American and Global OSH-aspects, this Master program mainly imparts key qualifications for OSH specialists including:

- Project management in the area of OSH.
- Research skills including statistical analysis, scientific writing and critical reading.
- Skills to work in an international context like Scientific English and Intercultural Communication.
- Self-dependent working and learning methods.
- Modern presenting and teaching techniques.

Furthermore, the program is based on a blended learning principle - so the Master is compatible with full-time work. The first year is taught in Spanish and the second in English.

The Master's degree in International Occupational Safety and Health has started its enrollment period. We are therefore looking forward to a high number of interesting applications to be submitted by the 15th of September 2015. The new cohort will then start in 2016.

For more information please check our homepage: <http://www.osh-munich.de/> and find us on Facebook (<https://www.facebook.com/pages/Maestr%C3%ADa-IntMOSH/419982864735484>)

### **Global Labor Masters Program Invites Applicants Penn State University / Center for Global Workers' Rights**

The School of Labor and Employment Relations at the Pennsylvania State University invites applicants to its Masters in Professional Studies program within its Center for Global Workers' Rights. The 12-month program focuses on labor and global workers' rights and is designed for mid-career professionals. The program's new cohort will begin their studies in mid-August, 2016.

The Masters program's core curriculum covers workers' rights, comparative employment relations with a strong focus on the Americas and Asia, gender and race relations at work, research and writing for labor practitioners, labor and globalization, and strategic corporate research and campaigns. Students participate in internships with U.S. labor unions or NGOs and write a capstone project.

The 2016 / 2017 year will mark the third year for the Masters program, which is based at Penn State University's flagship campus in State College, Pennsylvania. The program has thus far included students from China, Brazil, Germany, India, South Korea, Jamaica and the United States. The Center for Global Workers' Rights was established in 2012 with the goal of promoting scholarly research and scholar-practitioner exchanges on issues related to workers' rights. Penn State is the fifth worldwide campus to join the Global Labour University, a network of universities, trade unions and civil society organizations that works with the International Labor Organization (ILO) to provide labor-focused academic programs.

The deadline for admission to Penn State's GLU Masters program is March 1, 2016. More information is available at <http://lser.la.psu.edu/gwr> or by contacting [lgwr@psu.edu](mailto:lgwr@psu.edu).

### **Graduate Certificate Program in Occupational and Environmental Health Georgetown University, Washington, DC**

Georgetown University is pleased to announce a new graduate-level Certificate in Occupational and Environmental Health Program (COEH). The COEH is designed for safety and health practitioners with strong science backgrounds who are interested in targeted graduate-level education. The 12-credit program can be completed in two semesters of evening classes, and enables students to integrate scientific exposure assessment through occupational hygiene and safety science methods, assess toxicological information about disease outcomes, and develop and apply interventions to reduce exposure to occupational and environmental hazards including in the workplace, the community, and the larger environment. Completion will ensure

that educational requirements will have been met to permit students to sit for the Certified Industrial Hygienist (CIH) examination or the Certified Safety Professional (CSP) examination. Please explore our website at <http://coeh.georgetown.edu> or contact Ms. Sarah Shohet at [Sarah.Shohet@georgetown.edu](mailto:Sarah.Shohet@georgetown.edu) for more information.

### **Masters' and Doctoral Training Opportunities**

#### **Midwest Center for Occupational Health and Safety Education and Research Center University of Minnesota, Minneapolis, Minnesota**

The mission of the Midwest Center for Occupational Health and Safety (MCOHS) Education and Research Center (ERC) is to ensure a Center of Excellence that provides: 1) cutting-edge interdisciplinary academic and research training to prepare exceptional leaders who make significant contributions to the field of occupational health and safety and 2) continuing education to prepare occupational health and safety professionals to address current and emerging threats to the nation's workforce. This ERC, one of 18 nationwide, was designed in response to a mandate of the National Institute for Occupational Safety and Health (NIOSH) -- to provide an adequate supply of qualified personnel to carry out the purposes of the Occupational Health and Safety Act and reduce the national burden of work-related injury and illness. The MCOHS provides graduate degree programs, continuing education and outreach activities, and serves as a regional resource for industry, labor, federal, state, and local government agencies, agriculture, and other interested parties. Graduates are prepared to assume positions in various institutions including: academic institutions, corporate and industrial settings, health agencies, and health care facilities, among others. Visit the MCOHS ERC Homepage: <http://www.mcohs.umn.edu> or call toll free: 1-877-36- MCOHS (1-877-366-2647). MCOHS ERC Director: Susan Goodwin Gerberich, PhD ([gerbe001@umn.edu](mailto:gerbe001@umn.edu)). *Tuition and stipends are available to eligible applicants.*

**Online Master's Degree: Occupational Health Nursing  
North Carolina Occupation Safety and Health Education and Research Center  
University of North Carolina at Chapel Hill  
Occupational Health Nursing**

Apply to the MPH Degree Program in Occupational Health Nursing at UNC-Chapel Hill! We admit students twice a year—for Fall 2016 admission (starting in August) with January 2, 2016 deadline, and Spring 2017 admission (starting in January) with October 1, 2016 deadline. The program prepares occupational health nurse specialists for positions in leadership, program planning and evaluation, or management of occupational health nursing programs. The program is 43 credits and can be completed on campus or through distance learning, part-time or full-time. Applicants must be RNs with baccalaureate degree; have 2 years or more experience in occupational health nursing or in the field of occupational health and safety (other experience in public health nursing or related field or emergency nursing may be considered); minimum GPA of 3.0; 3 letters of recommendation; transcripts of all completed course work and each degree received; GRE scores within 5 years of application; and personal statement describing career goals and how this program will prepare you. For more information, contact Susan Randolph at 919-966-0979 or [susan.randolph@unc.edu](mailto:susan.randolph@unc.edu) or Bonnie Rogers at 919-966-1765 or [rogersb@email.unc.edu](mailto:rogersb@email.unc.edu).

More information is available on our website: <http://sph.unc.edu/programs/?ppk=phlp-MPH2-0>

Apply to our Academic Certificate Program in Occupational Health Nursing at UNC-Chapel Hill. We admit students twice a year—for both Spring and Fall semesters. Students complete 4 courses for 11-12 academic credits through distance learning. All credits earned are completely transferable as part of the requirements for the completion of the OHN Tract MPH degree. Apply between September 1 and November 1, 2015 to start in January 2016. Completion of the Certificate Program enables students to apply to take the COHN or COHN-S certification exam offered by ABOHN. Applicants must be RNs with 2 years or more experience in occupational health nursing or in the field of occupational health and safety (other experience in public health nursing or related field or emergency nursing may be considered); 2 letter of recommendation; transcripts of all completed course work post high school; and personal statement. For more information, contact Susan Randolph at 919-966-0979 or [susan.randolph@unc.edu](mailto:susan.randolph@unc.edu) or Bonnie Rogers at 919-966-1765 or [rogersb@email.unc.edu](mailto:rogersb@email.unc.edu).

More information is available on our website: <http://sph.unc.edu/programs/?ppk=phlp-cpohn-0>

## **Online Fundamentals of Industrial Hygiene**

Fundamentals of Industrial Hygiene is now being offered online. This course closely follows the Fundamentals of Industrial Hygiene course presented face-to-face at annual [Summer and Winter Institutes](#) presented by the NC OSHERC at the University of North Carolina at Chapel Hill. The next session begins August 18, 2015. See website for details:

<http://osherc.sph.unc.edu/continuing-education/courses/industrial-hygiene-fundamentals-online.html>

## **Johns Hopkins Occupational and Environmental Health Nursing Program**

### **Program Description**

This interdisciplinary program offers masters and doctoral education for nurses who wish to establish competencies in the area of occupational and environmental health. Supported by the National Institute for Occupational Safety and Health (NIOSH), and a component of the Johns Hopkins Education and Research Center for Occupational Safety and Health (ERC), the Occupational and Environmental Health Nursing program offers Master of Public Health (MPH), joint Master of Science in Nursing/Master of Public Health (MSN/MPH), and doctoral degrees (PhD\* and DrPH). With the exception of the PhD, degree programs can be completed in a part-time format. Many courses are available online.

Master's graduates hold leadership positions in the private sector, federal agencies, consulting, military services, labor unions, and other organizations that are concerned with protecting the health and safety of the workforce and community. They are prepared for new opportunities that arise as the field of occupational and environmental health expands. Doctoral graduates enter careers as independent researchers who work in academia, government agencies, and other institutions that focus on the advancement of knowledge in occupational and environmental health. The DrPH program is aimed at integrating and applying a broad range of knowledge and analytic skills in leadership, practice, policy analysis, and program management.

The full-time MPH program is 11 months, July-June, and the full-time MSN/MPH program is 18 months, July-December. Part-time online master's programs require a minimum of 4 weeks on-campus. Doctoral programs vary in length. Tuition assistance is available to outstanding candidates.

An online certificate program in Environmental and Occupational Health may be pursued by non-degree students as well as those enrolled in academic programs. The certificate can be completed entirely online.

**Further Information visit** [www.jhsph.edu/erc/oehn](http://www.jhsph.edu/erc/oehn) or please contact: Dr. Sheila Fitzgerald, (410) 955-4082 [sfitzge1@jhu.edu](mailto:sfitzge1@jhu.edu), Johns Hopkins Bloomberg School of Public Health | 615 North Wolfe Street, Room W7503A Baltimore, Maryland 21205.

\* PhD in the Department of Environmental Health Sciences

**California Department of Public Health Online Courses**

Nurses/physicians/industrial hygienists: CDPH is offering free continuing medical education courses online. Learn about work-related and childhood lead exposure, Coccidioidomycosis (Valley Fever), and mercury. You can get units through [these informative one-hour courses](http://us5.campaignarchive1.com/?u=4586a1ad0b7ecd671f7295e07&id=cb39e933f7&e=%5bUNIQID).

### **CIH Online- Register Now!**

The Mountain and Plains Education and Research Center is pleased to announce CIH Online. CIH Online exam review and maintenance courses offer practicing industrial hygienists studying for the Certified Industrial Hygiene Exam and safety professionals seeking ABIH and/or BCSP credits an advantage by providing you 24/7 access, peer-to-peer networking, community discussion boards, and instructor-led online review sessions. Course are eligible for IH contact hours, IH Ethics contact hours, and COC (Continuance of Certification) points through the BCSP. Visit [www.CIHonline.org](http://www.CIHonline.org) for more information and to register today!

### **Nursing CNE Activities**

The Southwest Center for Pediatric Environmental Health (SWCPEH) is one of 11 pediatric environmental health specialty units in the United States. SWCPEH is considered Region 6, serving Texas, Louisiana, Oklahoma, Arkansas, and New Mexico. SWCPEH is a FREE service offering consultations, education, referrals, and resources regarding pediatric environmental health issues to healthcare providers or community members. SWCPEH can provide services for any issue affecting pediatric health, from asthma to bed bugs. You can contact SWCPEH at: 1-800-901-5665 or visit our website for more information at: [www.swcpeh.org](http://www.swcpeh.org)  
SWCPEH has recently developed four new Nursing CEU courses covering hot topics in environmental health including reproductive & developmental toxicology, hydrofracturing, the environmental effects on academic performance, and asthma triggers. Each course is eligible for 1 nursing continuing education contact hour. You can access these courses free of charge at: [http://www.swcpeh.org/providers\\_ceupres.asp](http://www.swcpeh.org/providers_ceupres.asp).

### **US-Mexico Border Health Training Opportunity**

The South Texas Environmental Education and Research (STEER) Program of the University of Texas School of Medicine-San Antonio (UTSOMSA) provides in vivo training experiences at the US-Mexico Border for medical students, residents, and other health professionals in a unique and informative setting. STEER engages nearly 100 instructors, most of them volunteers, including health department leaders, community healthcare workers, and professors, to teach the dozens of half to full-day segments that make up the 4-week program.

STEER program is offered monthly if there are at least three qualified applicants. Limit of 10 students per rotation. See the website <http://steer.uthscsa.edu> for information and a downloadable application, or contact directly: [steer@uthscsa.edu](mailto:steer@uthscsa.edu).

### **NIOSH Approved Spirometry Courses**

All the currently approved NIOSH spirometry courses which are available are listed at <http://www2a.cdc.gov/drds/spirometry/schedule.asp>

## **Education and Research Center (ERC) Courses**

By topic <http://niosh-erc.org/courses/topic.shtml>

## **Free Online Continuing Education Course for Health Professionals on Pediatric Environmental Health**

Now Available at: [http://www.atsdr.cdc.gov/emes/health\\_professionals/pediatrics.html](http://www.atsdr.cdc.gov/emes/health_professionals/pediatrics.html)

This course is based on the Pediatric Environmental Health Toolkit: An American Academy of Pediatrics endorsed clinical tool. This is an online course developed in conjunction with the Agency for Toxic Substances and Disease Registry's (ATSDR) Division of Toxicology and Environmental Medicine, the University of California San Francisco Pediatric Environmental Health Specialty Unit, and Physicians for Social Responsibility, Greater Boston. Free 1.5 Credit Hours for: Physicians, Nurses, Nurse Practitioners, and other health professionals (check the course site). Access this interactive online course in the comfort of your own home or office to increase your knowledge base of common pediatric environmental health issues. Users can log in and out to complete the course in several sessions.

Additional ATSDR Environmental Health and Medicine continuing education offerings can be found at <http://www.atsdr.cdc.gov/emes>
